Southern District of New-York, to wit:

BE IT REMEMBERED, That on the twenty-first day of February, Anno Domini 1831, Edwin Williams, of the said District, hath deposited in this office the title of a book, the title of which is in the words following, to wit:

"The New-York Annual Register, for the year of our Lord 1831. Containing an Almanac; Civil and Judicial List: with Political, Statistical, and other information, respecting the State of New-York and the United States. By Edwin Williams.

The right whereof he claims as author. In conformity with an Act of Congress, entitled "An Act to amend the several acts respecting copyrights."

FREDERIC J. BETTS,
Clerk of the Southern District of New-York.

PREFATORY REMARKS.

IN presenting the second number of the New-York Annual Register, the compiler will not disguise the gratification it afforded him to observe the flattering manner in which his first attempt was received by the public, and the approval of the work by distinguished men in different parts of this State and the United States.

The improvements and additions which have been introduced into the Register the present year, will, it is hoped, meet with general approbation, and insure it a continuance of public favor. It is not deemed necessary in this place to enumerate any part of the improvements, as they will be readily seen by a glance at the contents. The Calendar of this year, with some of the historical data on its pages, are principally taken from the excellent Almanac of Mr. SPOFFORD, published by Mr. DAVID FELT, of this city.

Changes of various descriptions during the past year have been so numerous as to render the compilation of this volume extremely laborious and difficult, and have contributed to delay the publication beyond the period contemplated. The compiler is however confirmed in the opinion he expressed in the last Register, that a work of this kind, if it contain abstracts of the Reports to the Legislature and the annual executive appointments, cannot be published earlier than the last of February. Indeed it may be deemed expedient hereafter to defer the annual publication until March or April.

To those gentlemen in the different Counties of the State who have aided the compiler in his efforts to obtain accurate informa-

tion, he tenders his grateful acknowledgments. His thanks are especially due to those County Clerks and Postmasters who have promptly answered his inquiries. It is respectfully suggested to gentlemen of the bar, clergymen, and others possessing means of information, that they can essentially aid this work in future, by communicating such matters as are within their immediate knowledge to the Clerks of their respective Counties, or the Postmasters of County-towns, towards the close of each year.

With regard to general accuracy, this collection of Statistics may be confidently relied on, every exertion having been used to render it as correct as the nature of the case would admit. A few errors have unavoidably occurred, but is believed the most important will be found noticed in the Errata.

PLAN OF THE REGISTER.

This work, it will be observed, is divided into Four Parts, embracing distinct general heads, with an Appendix. To those who are not familiar with the arrangement of the last year's Register, it is well to remark, that the subjects relative to this State, in Parts II. and III. are treated of by Counties, which being always alphabetically arranged, it is easy to find any thing even without reference to the Index, which has been made very copious and minute.

New-York, February 21, 1831.

MERCANTILE ALMANAC, FOR 1831.

=

This Almanac (or Table) will be found useful in calculating the time when notes become due. For instance—if a note is dated February 10th, at 90 days, that date, as will be seen, is the 41st day of the year, being in a line with 10 in the index, or left-hand column, to which add, 93 days (which includes 3 days grace) and the table shows the 134th day of the year to be May 14th, and falling on Saturday.

ECLIPSES in the Year 1831.

There will be FOUR Eclipses this year—Two of the SUN, and Two of the MOON—as follows :

I. The first eclipse will be of the Sun, on Saturday, February 12th, visible throughout the United States. It will be the greatest and most remarkable solar eclipse that has taken place in the U. S. for several years. The Earth, at the time, will be near its perihelion, and the Moon not far from her apogee. The Moon, therefore, being farther from, and the Sun nearer to the Earth than is usual, the Moon will not appear as large as the Sun; this will cause a small ring of the Sun to be seen round the Moon at the middle of the eclipse in all places where it is central. It will be annular in Arkansas Territory, Tennessee, Mississippi, Alabama, Georgia, and the Carolinas; and central on the meridian in North Carolina, in latitude $35^{\circ} 5' 50''$ north, and longitude $81^{\circ} 28' 45''$ west of London. In New-York, its phases will be as follows, viz. :—

Beginning, - - - - -	11h. 15m.	Apparent time, forenoon.
Ecliptic conjunction, or New D, -	0 3	do. afternoon.
Middle, - - - - -	0 46	do.
Greatest obscurity, - - - - -	0 48	do.
End, - - - - -	2 16	do.

Quantity eclipsed, $11\frac{1}{2}$ digits, on the Sun's southern limb. D's latitude, $42^{\circ} 15''$ North, descending.

II. The second will be of the Moon, at the time of the Full, Feb. 26th, invisible, as the Moon will be below the horizon.

III. The third will be of the Sun, on Sunday, August 7th, at 5h. 7m. afternoon, yet on account of the Moon's south latitude, it will not be visible in North America; but in the South Pacific Ocean, in the neighbourhood of the Society, Friendly, and Navigator's Islands, in latitude $26^{\circ} 36'$ south, and longitude $156^{\circ} 2'$ west of London, it will be visible, central, and total on the meridian. In New Holland, the Sun will rise totally eclipsed, and set totally eclipsed in South America.

IV. The fourth, and last, will be of the Moon, on Tuesday, August 23d, partly visible, and calculated as follows, viz. :—

Beginning, - - - - -	5h. 44m.	apparent time in the morning.
Middle, - - - - -	5 1	do.
Moon sets, - - - - -	5 20	do.
Ecliptic opposition, - - - - -	5 9	do.
End, - - - - -	6 17	do.

7 Digits eclipsed; $5^{\circ} 48'$ on the Moon's north limb, in the southern section of the Earth's shadow.

EXPLANATION OF THE CALENDAR PAGES.

The term *mora*. in the column of the Moon's rising and setting, shows that the Moon does not rise or set at all on that day, and that the time of her next rising or setting is the morning of the following day. The first short column below is the 1st, 7th, 13th, 19th, and 25th days of the month—the 2d column, day's length in hours and minutes—3d, day's increase and decrease ditto—4th, shows the minutes day breaks, or morning twilight begins *after*, and evening twilight ends *before*, the hour, on each side of the minutes—5th, Pointers north, or more accurately, Dubhe, the Pointer nearest the Pole, north—6th, 7th, 8th, 9th, and 10th, * Arcturus, 7 stars, ♀ Venus, ♃ Jupiter, and ♂ Mars, rise, set, or are south—11th, Sun slow or fast of the clock, in minutes—12th, Sun's place in the ecliptic, in degrees and minutes

—13th, Sun's amplitude, to the nearest degree—14th, Moon's age, in days—15th, 16th, 17th, and 18th, δ 's declination The Planets', Moon's, and Sun's declination, and place, are calculated for 4 minutes past 7 o'clock in the morning at New-York, that is noon at London.

Occidental and Oriental Stars.

The planet Venus (ζ) will be *evening* star till October 8th, thence *morning* star through the year.

[♃] Jupiter also will be *evening* star till January 20th, thence *morning* star till August 10th, and then again *evening* star to the end of the year

[♂] Mars likewise will be *evening* star till September 24th, and *morning* star the rest of the year.

Jan. 25, 1787. Shays' insurrection suppressed. The insurgents, headed by Daniel Shays, a Captain in the revolution, convened in tumultuous bodies, obstructed the sitting of the courts, and finally took up arms in opposition to the laws; but a military force soon subdued them and restored order.

In August, 1786, 1500 insurgents assembled at Northampton, took possession of the court-house, and prevented the session of the court. Similar outrages occurred in other parts of Massachusetts and New-Hampshire. In Sept. a body of men surrounded the general assembly, sitting at Exeter, and held them prisoners for several hours. In this state of civil commotion, a body of troops, to the number of 4000, under Gen. Lincoln, and 200 under Gen. Shepherd, was ordered out by Massachusetts, to support the courts, and to suppress the insurrection. After some skirmishing, the insurgents were dispersed: several were taken prisoners, tried, and condemned, but were ultimately pardoned.

Feb. 6, 1778. Treaty of Amity, Commerce, &c. concluded at Paris, between the U. States and France. Dr. FRANKLIN, and other American Commissioners, had resided at the court of France upwards of a year, urging this important alliance. But the success of the American struggle was still too doubtful for that country to embroil herself in a war with Great Britain. The capture of Burgoyne and British army, at Saratoga, October 10, 1777, and other favourable events about this time, hastened the conclusion of this all-important treaty. By it France espoused the American cause, and neither party were to make war or peace without the consent of the other.

9th. 1799.—The French fr. L'Insurgente, 40 guns, captured by U. S. fr. Constellation, 38 guns. Com. Truxton. This intrepid officer in a subsequent action, compelled another French frigate to strike her colours, but she afterwards made her escape in the night. The treaty was annulled, and war commenced between the two nations a short time before this. The U. States, in arms at home, and victorious on the ocean, commanded the respect of her enemy. Overtures of peace were made by the French Directory. Ministers were appointed by the U. S. who, on their arrival in France, found Bonaparte at the head of the government. In Sept. 1800, another treaty was concluded, satisfactory to both countries.

March 5, 1770. Boston massacre, or affray between the king's troops and the citizens, in which 3 of the latter were killed and several wounded. This outrage threw the town into instant commotion:—alarm guns were fired, the bells rung, the drums beat, and the general cry was "to arms!" In a few hours several thousand citizens were collected, and a dreadful scene of blood must have ensued, had it not been for the assurance of the Governor, that the affair should be settled to the satisfaction of the people, and that the troops should be immediately removed from town. The circumstances and probable consequences of this tragical affair, sunk deep into the minds of the people, and were turned to the advantage of their cause. Its anniversary, for many years, was observed with great solemnity; and the most eloquent orators were successively employed to deliver an annual oration to preserve the remembrance of it fresh in their minds.

27, 1814. Creeks defeated by gen. Jackson, and 750 of their warriors killed.

April 30, 1789. Washington inaugurated first President of the U. States. The ceremony was performed at the Federal Hall in N York, before the first Congress under the new constitution. The oath was administered by Chancellor Livingston. Many circumstances concurred to render the scene unusually solemn. The presence of the vast concourse of spectators; the impressions of gratitude for the past services of the father and deliverer of his country; the devout fervency with which he repeated the oath; the fact of his being chosen to the most dignified office in the world, by the unanimous voice of more than 3,000,000 of freemen, all conspired to place this among the most interesting scenes ever witnessed.

"It seemed from the number of witnesses," said a spectator, "to be a solemn appeal to heaven and earth at once. Upon the subject of this great and good man, I may perhaps be an enthusiast; but I confess I was under an awful and religious persuasion, that the great Ruler of the Universe was looking down at that moment, with peculiar complacency upon the scene."

May 3, 1813. Havre de Grace, Md. burnt by the Br. squadron, under Ad. Cockburn.

May 6, 1813. Frederick town and Georgetown, villages in Md. burnt by the British.

May 13, 1607. First permanent white settlement in the United States commenced, on an island, or peninsula, in Powhattan or James river, Virginia. The place flourished for many years, and became a considerable city, called Jamestown. But the unhealthiness of the climate at length caused it to be deserted and left to decay. It is now in ruins: the houses, which were principally of brick or stone, being mostly demolished by time: but their remains are distinctly visible from vessels passing on the river, as the main channel is within a few rods. Inscriptions made more than two centuries ago, are still legible on the broken walls of the old church, and on some of the mouldering tombstones. The place is now desolate and uninhabited, except by one solitary individual.

May 29, 1813. Attack on Sackett's Harbour, N. Y.

June 6, 7, 8 and 9, 1816. Remarkable for the degree of cold and frost in N. England and the British provinces. In many places ice was $\frac{1}{2}$ of an inch thick, and the ground in moist spots frozen sufficiently to bear a man. On the 7th, considerable snow fell in N. Hampshire. On the 9th a total eclipse of the Moon took place, attended with circumstances more extraordinary than any on record; the moon being entirely invisible during the whole time of total obscurity, although the evening was perfectly fair and the atmosphere entirely free from haze, smoke, or clouds of any kind. This was the most extraordinary season ever known in N. England: the spring, inclement and backward; the summer, remarkably cold and barren, frosts happening every month; and the heavy frosts commenced so early as almost totally to destroy the crops of Indian corn: scarcely enough came to maturity for seed. There was an unusual scarcity of all kinds of produce, except apples, potatoes, and wheat, although but little of the last, generally, is grown in New-England. The crop of apples, in particular, was astonishingly abundant. Of hay there was not a fourth of the usual crop.

July 25, 1814. Desperate engagement at Lundy's Lane (U.C.) commonly called the Battle of Bridgewater. This bloody action was fought near the great cataract, whose tremendous roar was drowned by the thunder of artillery and the din of arms, but was distinctly heard during the pauses of the fight. Against well disciplined troops the Americans contended with various success from 6 o'clock in the evening till midnight, when both parties retired, leaving nearly 500 men dead on the field: the Americans had near 200 killed, and about 600 wounded. British had 300 killed, and 800 wounded. The scene of this sanguinary conflict, was about half a mile west of the Niagara Cataract. The thunder of the cannon; the roaring of the falls; the incessant discharge of musketry, and the groans of the wounded, during the engagement—heightened by the circumstance of its being night—afforded a scene rarely to be met with in history. The evening was calm, and the moon shone with lustre. About 9000 men were engaged in the battle.

Aug. 16, 1824. J. A. FAYETTE landed at New-York, having been invited and offered a national ship by Congress to convey him on a visit to the U. S., but he came in the ship Cadmus, a Havre packet. He was received with a rapture bordering on enthusiasm by many thousands of grateful citizens, at Castle Garden, amidst the acclamations of a countless multitude, the ringing of bells, and the firing of cannon. He made a tour through the U. States, being every where received with the utmost demonstrations of joy and gratitude, and embarked September 11th, 1825, on board the Brandywine, a frigate built by government to convey him to his native country: Congress having conferred on him a township of land, and 200,000 dollars.

Aug. 24, 1814. City of Washington captured and burnt by the British. Besides an immense amount of private property, the enemy wantonly consigned to destruction, with the capitol of the U. States, the valuable libraries and archives of the nation, their contents, works of taste, and elegant specimens of the fine arts.

Sept. 11, 1814 Signal defeat of the British at Plattsburgh, both off the harbour, on Lake Champlain, and on the land. At 9 A. M. the battle commenced. Seldom has the ocean witnessed a more furious encounter than now took place on the bosom of this transparent and peaceful lake. At half past 11, the shout of victory from the fleet announced the result of the battle. A second British squadron surrendered to the prowess of American tars. After an engagement of two hours and a half, the British ships were silenced, and 1 frigate, 1 brig, and 2 sloops of war, were taken by an inferior American force, commanded by Com. Macdonough. The two armies engaged at the same time, and the British troops attempted, at different places, to cross the Saranac. At a ford above the village, the strife was hot and deadly. As often as the enemy advanced into the water, they received a destructive fire from the militia, and their dead bodies floated down the stream literally crimsoned with blood. The shout of victory from the fleet, animated to braver deeds their brethren on the land; and in a few hours they were entirely routed and dispersed, with a loss of nearly 3000 men.

Oct. 1, 1807—First successful application of steam to the purposes of navigation, in a voyage from N. York to Albany, by ROBT. FULTON, in the steamboat Clermont.

12, 1812. A party of 101 British taken by Col. Clark, of Vermont, with 192 riflemen, at Massiquol, Canada. Not one of the party escaped.

24th, 1682—Wm. Penn, a Quaker, founder of Pennsylvania, first arr. in the U. S. The state was granted him in consideration of debts due his father from the Crown of England. He purchased the site for his capital, which he called Philadelphia, (*the city of brotherly love*) of the natives, and by his pacific and friendly intercourse with them, greatly endeared himself and his sect to their affections. So great was the attachment and veneration of the Indians for Penn and his followers, that it is said to be a fact that in all their wars, they never killed a Quaker, knowing him to be such. Pennsylvania, owing to its healthful climate, fertile soil, and the mildness and equity of its laws, had a more rapid and prosperous settlement than any other of the colonies.

Dec 20, 1803.—The territory of Louisiana in a formal manner annexed to the U.S. having been previously ceded by Spain to France, and bought of France for 15,000,000 dollars. Its boundaries have never been defined; but on a moderate estimation, it is more extensive than some of the most powerful kingdoms of Europe: from it several independent states have already been formed and admitted into the union. By this acquisition the U. S. were enlarged to nearly double their former size; and the entire control of the river Mississippi, and its branches was obtained. The purchase of this vast and fertile territory, was the most important measure of Mr. Jefferson's administration.

29th, 1812.—British frigate Java, commanded by Capt. Lambert, captured by the U.S. frigate Constitution, commanded by Com. Bainbridge, off St. Salvador, after an action of about two hours. British had 60 killed, and 120 wounded—Americans had 9 killed, and 25 wounded.

GOVERNORS

*And other Chief Magistrates of the Colony and State of New-York,
from 1624 to 1831.**

DUTCH GOVERNORS.

Peter Minuit, from 1624 to 1630, and perhaps after that year, with the exception of a short time during the year 1629, when Wouter Van Twiller acted as chief magistrate. After Minuit's departure, the council at Manhattan administered the government until the spring of 1633, when Van Twiller returned with confirmed authority.

Wouter Van Twiller, from 1633 to 1638.

William Kieft, from 1638 to May 27, 1647.

Peter Stuyvesant, from May 27, 1647, to August 27, 1664, when the city of New-Amsterdam was surrendered to the English.

Anthony Colve, from August 12, 1673, to October 31, 1674.

ENGLISH GOVERNORS.

Richard Nicolls, from August 27, 1664, to May, 1667.

Francis Lovelace, from May, 1667, to July 30, 1673, when the fort and city were surrendered to the Dutch, after which Anthony Colve acted as governor until October 31st, 1674.

Sir Edmond Andross, from October 31, 1674, to the beginning of 1681. Anthony Brockholst, president of the council, from 1681 to August 27, 1683.

Thomas Dongan, from August 27, 1683, to the beginning of 1689.

Francis Nicholson, lieutenant-governor for a short time in 1689, after governor Dongan, and until Leisler assumed the government.

Jacob Leisler assumed the title of lieutenant-governor, and administered the government, under that title, from the beginning of 1689 to March 19, 1691. [Leisler was executed for high treason, but the attainder was afterwards reversed by the British parliament.]

Henry Sloughter, from March 19, 1691, to July 23, 1691.

Richard Ingolsby, president of the council, from July 26, 1691, to August 29, 1692. Joseph Dudley was president of the council, but he being absent, the council committed the chief command to Ingolsby, and though Dudley soon returned, he acquiesced in this arrangement.

Benjamin Fletcher, from August 29, 1692, to August 2, 1698.

Richard Earl of Bellamont, from August 2, 1698, to March 5, 1701. After the death of the Earl of Bellamont, William Smith, as oldest member of the council, claimed a right to act as president; but the council and the assembly decided that the government was vested in a majority of the council, by whom it was administered until May 19, 1701.

John Nanfan, lieutenant-governor, from May 19, 1701, to May 3, 1702.

Edward Lord Cornbury, from May 3, 1702, to December 18, 1708.

John Lord Lovelace, from December 18, 1708, to May 6, 1709.

Richard Ingolsby, from May 5, 1709, to April 10, 1710.

* From Butler's Discourse before the Albany Institute, 1830.

Gerardus Beekman, president, &c. from April 10, 1710, to June 14, 1711.
 Robert Hunter, from June 14, 1711, to July 31, 1719.
 Peter Schuyler, president, &c. from July 31, 1719, to Sept. 17, 1720.
 William Burnet, from September 17, 1720, to April 15, 1728.
 John Montgomerie, from April 15, 1728, to July 1st, 1731.
 Rip Van Dam, president, &c. from July 1, 1731, to August 1, 1732.
 William Cosby, from August 1, 1732, to March 10, 1736.
 George Clark, president, &c. from March 10, 1736, to October 30, 1736, when his commission as lieutenant-governor was published, after which he administered the government in that capacity until September 22, 1743.
 George Clinton, from September 22, 1743, to October 10, 1753.
 Sir Danvers Osborn, from October 10, 1753, to October 12, 1753, when he committed suicide.
 James De Lancey, lieutenant-governor, from October 12, 1753, to September 3, 1755.
 Sir Charles Hardy, from September 3, 1755, to July 3, 1757.
 James De Lancey, lieutenant-governor, from July 3, 1757, to July 30, 1759.
 Cadwallader Colden, president, &c. from July 30, 1759, to August, 1761, afterwards lieutenant-governor to October 26, 1761.
 Robert Monkton, from October 26, 1761, to November 15, 1761.
 Cadwallader Colden, lieutenant-governor, from November 15, 1761, to June 12, 1762.
 Robert Monkton, from June 12, 1762, until about the middle of 1763.
 Cadwallader Colden, lieutenant-governor, from 1763 to Nov. 13, 1765.
 Sir Henry Moore, from November 13, 1765, to September, 1769.
 Cadwallader Colden, lieutenant-governor, from September, 1769, to October, 1770.
 John Earl of Dunmore, from October, 1770, to July, 1771.
 William Tryon, from July, 1771, to April, 1774.
 Cadwallader Colden, lieutenant-governor, from April, 1774, to June, 1775.
 [From May, 1775, until the adoption of the Constitution, the state government was administered by committees of safety and the provincial congress.]

GOVERNORS UNDER THE CONSTITUTION.

DUTCH ARCHITECTURE—OLD HOUSE IN BROAD STREET.

The above engraving, representing a house still standing in Broad-street, (No. 41) New-York, is one of a series which have appeared in the *New-York Mirror*, intended to illustrate the ancient style of building by the Dutch in the city of "New-Amsterdam."

A CHRONOLOGY,

CONTAINING THE PRINCIPAL EVENTS CONNECTED WITH THE HISTORY OF
THE STATE OF NEW-YORK TO 1814.

- 1609 Sept. 3. Hudson River and the adjacent territory discovered by Captain Henry Hudson, in the employ of the Dutch East India Company.
- Establishments formed by the Dutch near Albany, and on the south side of Manhattan Island, (New-Amsterdam.)
- 1664 The New Netherlands surrendered by the Dutch to the English.
- 1673 August 12. The New Netherlands retaken by the Dutch.

There are 56 Counties in the State, including Hamilton (which is to be considered as part of Montgomery until it contains 1288 taxable inhabitants), 5 Cities, and 757 Towns. Total, 762 Towns and Cities, or 786 Towns and Wards.

NOTE. The citizens of Schenectady (which is the only county that shows a decrease since 1825), have petitioned Congress on the subject of the census. They are dissatisfied with the returns, and express their belief that there has been an actual increase, instead of decrease, since 1825.

SUMMARY AND REMARKS.

According to the above statement, 237 newspapers are at present published in this state, of which 16 are daily papers. Due precautions have been taken to make the list as perfect as possible; the omissions it is believed are few and inconsiderable.

Of the political journals, about 70 are favourable to the present administration (Jackson), and about 80 in the opposition; of the latter number, 48 are avowedly anti-masonic.

Papers are now published in all the organized counties of the state, except Putnam and Rockland, which are supplied from adjoining counties, and from the city of New-York.

54 papers are published in the city of New-York, viz.:

	Whole number issued at each publication.	Annually.
11 Daily - - -	16,000 (average, 1455)	4,944,000
10 Semi-weekly - -	13,800 (average, 1880)	1,955,200
26 Weekly - - -	50,000 - - - - -	2,600,000
6 Semi-monthly - }	2,000 - - - - -	36,800
1 Monthly - - }		
54 Papers.	Total No. of sheets printed annually,	9,536,000
183	Probable number issued in other parts of the state	5,000,000
237	Total - -	14,536,000

From this calculation, it appears that the quantity of paper consumed annually by the public journals in this state, exceeds 33,000 reams, which, at an average value of \$4 per ream, amounts to \$132,000 paid to the paper manufacturers, by the newspapers of this state.

Miscellaneous Information relative to Manufactures.

According to the foregoing table it will be seen that there are in this state

209 Incorporated Manufacturing Companies

88 Cotton Manufactories

208 Woollen do.

202 Iron do.

Which statement is as nearly correct as it has been practicable to make it. A summary of other manufactures, from the state census of 1825, is given at page 36.

The following details are prepared from the best information that could be obtained from the different counties.

COTTON.

There are at present in this state 88 cotton manufactories, which may be estimated to contain on an average 1500 spindles each—total, 132,000 spindles. It is calculated that each spindle will spin 50 lbs. of cotton annually, making 6,600,000 lbs. of cotton consumed by the manufactories in this state, equal to 22,000 bales—annual value of cotton goods manufactured considerably exceeding \$3,000,000.

WOOL.

The number of woollen manufactories in this state, it will be seen by the table, is 208, exclusive of a large number employed in custom work. It is difficult to ascertain the quantity of wool manufactured at these establishments, but averaging the amount of goods made at each at \$15,000, the total value of woollens manufactured annually in this state, exclusive of those made in families, is over \$3,000,000.

IRON.

We estimate the amount of bar, rolled, and sheet iron manufactured at the iron works in this state, at 2500 tons, valued at over \$200,000; total value of all manufactures of iron, at least \$4,000,000 annually.

PAPER.

There are about 50 paper-mills in this state, manufacturing various kinds of paper to the probable amount of \$500,000.

HATS.

The amount of wool and fur hats manufactured and finished in this state, may be stated at \$3,000,000 annually.

BOOTS AND SHOES.

We have no accurate data by which we can estimate the total annual value of the boots and shoes made in this state, but it will doubtless exceed \$5,000,000, in addition to the large quantities brought into the state and sold, manufactured in the eastern states and New-Jersey.

LEATHER.

The amount of sole-leather manufactured in this state annually is as follows :

	Sides.	\$ cts.	Amount.
30 Tanneries in Green county.	279,000 .	3 00 .	837,000
5 do. in Delaware	53,000 .	3 00 .	159,000
8 do. in Ulster	50,000 .	3 00 .	150,000

The above is nearly all tanned on account of dealers in the city of New-York, and sent there for sale.

It is computed that there are tanned in other parts of this state 193,000 . 3 00 . 579,000

It is also estimated that the number of sides tanned for upper leather is. . 225,000 . 1 75 . 393,750

Doz. of calf-skins tanned in this state 30,000 . 18 00 . 540,000

In the city of New-York.

Dozen of goat-skins manufactured by the morocco dressers 13,000 . 9 00 . 117,000

Dozen of sheep-skins 26,000 . 5 00 . 130,000

Total . \$2,905,750

WINDOW GLASS.

The principal manufactories are located as follows :

1 in Ulster county	3 in Oneida county
2 in Madison	2 in Ontario.
1 in Wayne	

Producing, on an average, about 9000 boxes each per annum, value at least \$200,000.

Domestic Articles manufactured in Families.

By the state census of 1825 (see page 36), the following wool-len, linen, and cotton cloths, were made in families the year preceding.

	Value, per yd.	Amount.
2,918,233 yards fulled cloth	\$1 00 .	\$2,918,233
3,468,001 do. flannel and other woollens, not fulled	0 20 .	693,600
8,079,992 linen, cotton, and other cloths . .	0 15 .	1,211,998

Total . . . \$4,823,831

*Desultory Statements from different Counties.***ALLEGANY.**

By the census of 1825, there were 15 fulling mills, 13 carding machines, 26 grist mills and 90 saw mills in the county. 46,364 yards of flannel, 28,113 yards fulled cloth, and 95,938 yards linen and cotton cloths were made in families the year preceding.

ALBANY.

There is one cotton manufactory in the town of Bern. According to the census of 1825, there were also in Albany county two cotton and woollen factories, 2 iron works, 29 carding machines, 18 fulling mills, 35 grist mills and 101 saw mills. At the present time the manufactories of the city of Albany are very numerous and extensive. The breweries of Messrs. Fidler and Taylor, and Boyd and McCulloch, are among the largest in the state.

CAYUGA.

The State Prison at Auburn is an immense manufactory. The whole number of convicts (about 600) are employed in all the different branches of domestic manufactures.

There are also at Auburn two cotton factories, two woollen factories, 1 paper mill, 1 scythe factory, 1 clock factory, 4 flouring mills, 3 saw mills, 2 breweries, 4 distilleries, 2 trip hammers, 1 card machine factory, 3 carding and fulling mills: and in the towns of Aurelius and Mentz upon the outlet of the Owasco Lake there are several flouring mills and saw mills. Also large and valuable flouring mills at Union Springs on the Cayuga Lake, and several flouring mills and saw mills on the Salmon Creek, in Genoa.

CHENANGO.

There is a cotton mill at New Berlin, where a very considerable quantity of cloth is manufactured, and there is a woollen manufactory in Guilford. In the village of Oxford an iron foundry has lately been put in operation. The bellows is worked by steam, and a great variety of castings is made.

COLUMBIA.

Hudson—There are in this city, the calico print works of the Messrs. Marshall, which print annually 200,000 pieces, and employ nearly 300 operatives, also 2 carpet factories, 1 flannel, and one cotton factory.

DUTCHESS.

Amenia—An iron foundry in South Amenia.

Fishkill—Glenham, and one other woollen. Matteawan, cotton.

Clapps—A mahogany and comb factory.

Hyde Park—A manufactory of forcing pumps.

La Grange (formerly Freedom) woollen factory, owned by Titus & Son.

Pine Plains—Woollen factory, owned by Cornelius W. Turner. Scythe factory, owned by Silas Harris, 500 doz. per annum.

Pleasant Valley—Pleasant Valley cotton manufacturing company, owned by Givan & Co. Pine Grove, woollen, Wm. Buckley.

Poughkeepsie—3 woollen factories in the village of Poughkeepsie, and one cotton, in the village of Manchester.

Rhinebeck—Lewis woollen factory, 3000 yards. Schell & Briggs, woollen, 1500 yards per annum.

Union Vale—1 cotton, 1 woollen factory.

Washington.—Woollen, owned by John Titus & Sons, cotton do. Haights.

The Matteawan Company

Is situated at Matteawan, one mile from Fishkill landing on the road to the village of Fishkill. This company have a capital of \$150,000 employed in the manufacture of various kinds of cotton goods; using about 400 bales of cotton per annum; in which business they employ about 100 persons, mostly women and children. Their building is of stone, 40 by 80 feet. They have also a brick building of about the same size within 50 feet of the other, in which they are manufacturing on an extensive scale, all kinds of cotton and woollen machinery and mill gearing. They have also in connection with their machinery building, a large iron foundry. They are celebrated for the superiority of their castings for rail road and machinery and mill gearing. They are manufacturing sad and hatters' irons, superior to the imported, on an extensive scale. This establishment employs altogether about 200 hands. The village consists of about 30 dwelling houses. They have a school of from 50 to 70 children under 12 years old of both sexes, besides a regular Sunday school. No spiritous liquors are allowed on the premises. They have an intelligent and orderly population. The whole is under the immediate superintendence of Mr. William B. Leonard, one of the proprietors. Their business is managed in New-York by Mr. P. H. Schenck, sole agent for the disposal of their manufactures at 123 Maiden-lane. They took several premiums at the late fair, for various articles of their manufacture.

The Glenham Company,

One of the most extensive woollen manufactories in this state, is situated on the Matteawan stream, 2 miles below the village of Fishkill, and three miles from the landing on the main road leading from the village to the landing. They employ a capital of \$150,000, and manufacture exclusively broad cloths from \$3 to \$10 per yard. This establishment is unrivalled in the United States for the excellence of its cloths—their exhibition at the last October fair in the city of New-York, was of the most superior description; they took the first premium for black and blue cloths, which were pronounced by the judges to be equal to the best ever imported from Europe; they were sold at \$12 per yard. The factory is of stone and brick of three stories, 150 feet by 40.

They are manufacturing about 2200 pounds of fleece wool, into 900 yards of broadcloth per week. Their village contains 20 tenements. They employ 130 men, women and children, and have a school and church in the neighbourhood. No spirituous liquors are allowed to be sold at the store or on the premises. The factory is managed by Mr. A. L. Ulrich, under the general direction of Mr. P. H. Schenck in New-York, the largest proprietor. Such establishments are of immense importance to the country, and creditable to the enterprising owners. P. H. Schenck & Co. No. 123 Maiden-lane, New-York, agents.

ERIE.

At the present time there are at Black Rock, one flouring mill, with five run of stones, one furnace and steam engine manufactory, two saw mills, one oil mill, one cloth dressing, and clothing works, one distillery, and one mill for sawing stone.

There are also hydraulic works at Clintonville, 2 miles south east of Buffalo, where are 1 manufactory of woollen blankets; 1 do. of hat bodies; 1 do. of leather; 1 flour mill and three saw mills, 1 do. for sawing building stone.

In Buffalo village, 1 steam iron foundry, and one furnace.

ESSEX.

There are in this county a large number of iron works, principally on the Sable river, on which are Adgate's falls, of 80 feet perpendicular. The iron is of a superior quality.

FRANKLIN.

One small woollen factory at Malone; also a very large building for a cotton factory, (but is not in operation) and one forge with two fires; also a hemp factory, or machine for dressing hemp.

GENESEE.

At Attica.—1 clothier's works, 1 furnace. *Alexander.*—4 clothiers' works. *Batavia.*—1 furnace, 2 clothiers' works, 1 bell foundry. *Byron.*—2 clothiers' works. *Bethany.*—3 clothiers' works. *Castile.*—1 woollen factory, 1 furnace. *China.*—2 clothiers' works. *Le Roy.*—1 furnace, 1 clothier's works, 1 carding machine. *Orangeville.*—1 clothier's works, 1 furnace. *Pembroke.*—1 clothier's works. *Perry.*—1 woollen factory, 3 clothiers' works, 1 furnace. *Sheldon.*—1 carding machine, 1 clothier's works. *Stafford.*—1 woollen factory, 1 clothier's works. *Warsaw.*—2 clothiers' works, 1 furnace. *Weathersfield.*—3 carding machines, 3 clothiers' works.

GREENE COUNTY.

The Catskill carpet company (capital \$100,000) is manufacturing a new article for carpeting, table covers &c. which is made by printing a great variety of patterns on felted cloths; speci-

mens of which were exhibited at the late fair of the American Institute in New-York and received a premium. The company's office in New-York is No. 33 Cedar street.

The other principal manufactories of Greene County are leather, which is made here in greater quantities than any other part of the state; and a paper mill which employs 50 hands, in the town of Catskill.

HERKIMER.

In the town of *Litchfield* is a woollen manufactory, owned by Hiram Holcomb. He has within the last year manufactured about 7000 yards of cloth, mostly sattinets, the average price of which has been about 70 cents, amounting to \$4900.

In the town of *Russia* is a cotton manufactory on the west Canada creek, belonging to Messrs. Arnold & Rice. It produces annually about twenty-five thousand pounds of yarn, which is worth about \$5000. Should the proprietors start their looms the ensuing year, as they expect to do, their factory will produce about \$7000 worth of shirtings annually.

Also one other cotton factory in the same town, on the west Canada creek, belonging to Philip A. Fenner. If the works are completed as the proprietor contemplates, "he will be able to spin about twelve thousand pounds of cotton into yarn the ensuing year."

In the town of *Litchfield* are iron works belonging to Eliphalet Remington, situated on Steel's creek about 3 miles south westerly of the Erie canal. He manufactures from scrap iron and ore, about 15 or 20 tons of wrought iron, from which he makes about 1500 rifle barrels, worth \$3 each. The remainder he works into mill irons, and various implements of husbandry amounting in all, to \$6000 or \$7000 annually.

He is now erecting his works on a most extensive scale at the junction of Steel's creek with the Erie canal, in the town of German Flats.

The rifle barrels made by Mr. Remington are of a superior quality, and are disposed of in various parts of the union. They command a price of from ten to fifteen per cent. more than others.

In *Frankfort* are two iron works.

In *Little Falls* three paper mills, two iron foundries, and two distilleries.

In *Newport* one cotton factory.

In *Salisbury* one paper mill. During the past year ending December 1st, 1830, the proprietors have manufactured 9525 reams of paper of all kinds, valued by them at \$14,666. They employ 8 men and 9 girls.

JEFFERSON.

Levi Beebee & Co.'s cotton factory at Watertown, 250 feet long and 50 feet wide, four stories high, built of stone, to contain 10,000 spindles.

Black River cotton and woollen manufacturing company at Watertown, 1440 spindles.

Brownville cotton factory, owners Fairman & Co. 1500 spindles.

KINGS.

In *Brooklyn*, Glass Works owned by John L. Gilleland & Co. where are made a great variety of elegant mould and pressed glass. —Oil Floor Cloths, Nassau Manufactory, S. B. M. Sands, proprietor, also Thomas Cooper & Co. The Nassau manufactory received the premium at the late Fair of the American Institute. —There are also in Brooklyn, 1 white lead manufactory, 1 of iron castings and chain cables, two of carriages (one of which, owned by Walters, Barre & Co. employs about 30 hands), 2 of sole leather, 2 of morocco, 2 of patent clocks, 5 extensive rope walks, 3 distilleries, 2 breweries, 1 woollen cloth dressing establishment, 2 mustard manufactories, several large hat manufactories, and 1 card manufactory.

In *Williamsburgh*, there are several rope walks, 1 manufactory of hinges, &c. 1 turpentine manufactory, and 1 distillery.

LIVINGSTON.

At Mount Morris, in this county, the Genesee river has been dammed up, and the river conveyed by a canal through the village; thus creating a fall of water of 14 feet, with sites for the erection of mills, or other works requiring water power to a great extent. The village of Mount Morris is in the centre of one of the finest agricultural districts in the state, and as soon as mills are erected, will be the place of deposit for an immense amount of wheat and grain of all kinds. The lands in its vicinity are of the first quality, both upland and intervale, and hold out great inducements to enterprising capitalists.

MONROE.

One cotton factory, with 1400 spindles; 2 woollen factories; 1 furnace; 1 brass foundry, and 12 flouring mills with 59 runs of stone in Rochester; 3 flouring mills at Wheatland; 1 flouring mill at Chili; 3 flouring mills at Riga; 3 flouring mills at Penfield; 1 flouring mill at Pittsford; 1 flouring mill at Rush; 2 flouring mills at Mendon. The above do not include mills that do custom work.

NEW-YORK.

The principal Iron Foundries are as follows:—One on the North River at the foot of Beach-street, William Kimball proprietor, connected with the West Point Foundry at Cold Spring.

James P. Allaire's Establishment, 464 Cherry-street;—large quantities of iron castings, and steam engines, are made at this foundry.

Henry Worrall's Foundry, No. 26 Elm-street; considerable business is done in light castings.

Edward Dunscomb's Rolling and Slitting Mill, Corlaer's Hook, near Walnut-street.

Columbian Foundry, No. 72 Duane-street, Robert M'Queen, proprietor; iron castings of all descriptions, steam engines, &c. are made at this establishment, which is believed to be the oldest of the kind in the city.

Steel Manufactory. Oliver L. Clark, West-street, near Morton-street. This steel is made from American iron; and obtained the premium at the Fair of the American Institute, 1829.

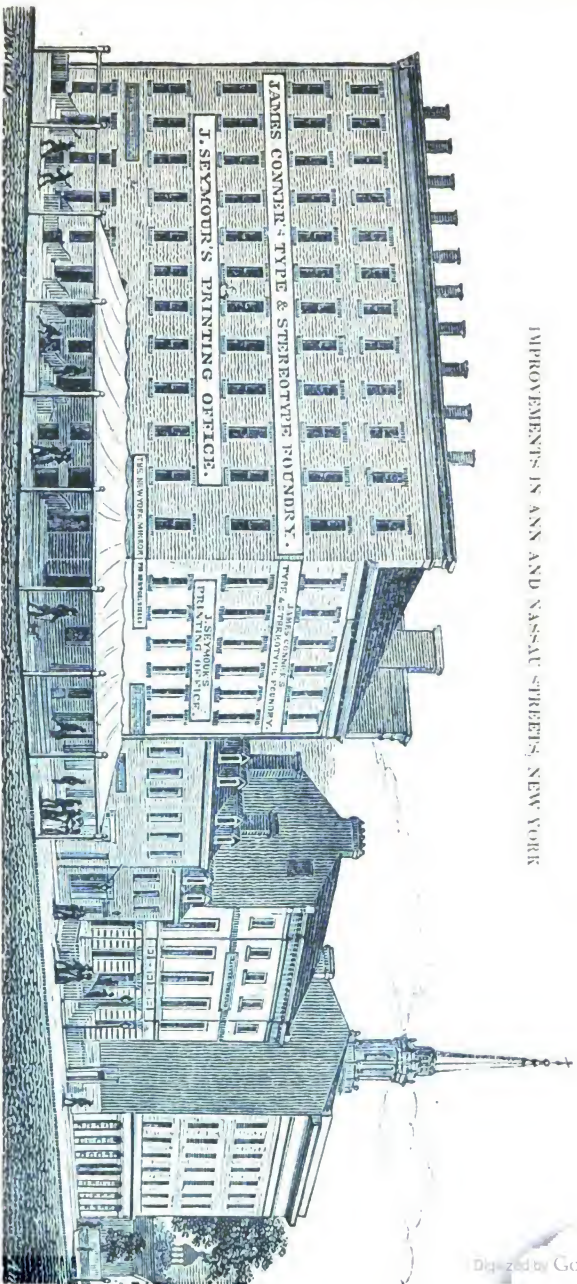

Principal *Type and Stereotype Founders*.—E. White, George Bruce, Wm. Hagar & Co., James Conner, A. Chandler, and E. Lothian. Probable amount of type and stereotype manufactured annually by the above establishments, \$140,000; number of hands employed in all, about 200.

The following articles among others manufactured in the city of New-York, obtained premiums at the late fair of the American Institute: cotton goods, printed silk handkerchiefs, sewing silk made of silk raised in Connecticut; hardware, locks, files, and cutlery; mathematical instruments, brass nails, cast-iron stoves, silver and plated ware, clocks, cut glass, fire bricks, beaver and silk hats, boots and shoes, elegant piano fortes from several manufacturers, cabinet and gilt ware, maple chairs, chemicals, starch, japanned leather; leather, fur, and cloth caps, upholstery, &c.

Principal articles manufactured at the *New-York Chemical Manufactory*: oil vitriol, muriatic acid, spirits nitre fortis, aq. fortis tin, aq. fortis duplex, bleaching powders, alum, copperas, Epsom salts, blue vitriol, and borax. The establishment is situated on the banks of the North river, about three miles from the city, and manufactures to the amount of about \$50,000 per annum.

HATS.—The number of fur hats finished in the city of New-York per annum, is not less than \$1,500,000, at an average value of \$3 per hat. There are also brought to this city for sale from the surrounding country, hats (finished) to the probable amount of \$100,000 annually. A large proportion of the hats finished in this city, are manufactured in New-Jersey and Connecticut. The number of hat stores and manufactories in the city is about 100.

IMPROVEMENTS IN ANN AND NASSETT STREETS, NEW YORK

A few years since the site of these commodious buildings, some of which are used as printing-offices, manufactories, &c. was covered with low wooden houses, although directly in the vicinity of the City Hall and Park. To the right of this picture is Nassau-street, in which are the American Bible Society's House and "Clinton Hall." Beyond this are seen part of the churchyard and lecture room of the Brick Church, (Br. Spring's) the spire of which rises above Clinton Hall. On the corner of the range is the office of the New York Mirror, the printing-office of Jonathan Seymour, and the Type and Stereotype Foundry of James Conner, proprietor of all that part of "Franklin Buildings" shown in the above sketch.

THE NEW YORK
PUBLIC LIBRARY.

ASTOR, LENOX AND
TILDEN FOUNDATIONS.

By the introduction of machinery, there has been a great improvement in the manufacture of this article; and hats are now sold at four dollars each, equal in appearance to those formerly sold at ten dollars.

NIAGARA.

At Lockport.—E. Bissel's flouring mill, 6 run of stones, 6 stories high.

L. A. Spalding's 4 do. 7 do.

D. A. Thompson's sash and pail factory.

Stickney & Yarrington's iron foundry.

A. Waldrige's mill for sawing and polishing stone for door and window sills and caps. An extensive quarry of grey lime stone or marble is found in this mountain ridge, not surpassed for buildings by any west of Albany.

ONEIDA.

A statistical view of the Cotton manufactories and Oriskany Woollen factory is given at page 117. There are also in this county 3 glass factories, 3 blast furnaces, 6 air furnaces, and 3 extensive manufactories of machinery, besides tanneries, distilleries, paper mills, oil mills, and various other important manufactories, of which we have not been able to procure particular statements.

ORANGE.

The Village of Walden

Is situated at the high falls of the Walkill, eleven miles west of Newburgh. This village was commenced in 1823, and now contains about 800 inhabitants. It has peculiar advantages for manufacturing, being in a fine healthy country, with a water power sufficient for the supply of twenty manufacturing establishments. A part of the sites are occupied as follows:—one flannel manufactory; one broadcloth do. one cotton do. one flour mill, and one saw mill. The intercourse with the city of New-York is easy, and the price of transportation only about 12½ cts. p. cwt. There is an Episcopal church in the village, and respectable schools for both sexes, with a library. Over the Walkill river a wire foot bridge has been erected, about 150 feet long, (at a point where a cascade of 32 feet fall terminates,) which proves to be useful and cheap.

Franklin Company. This factory is situated in Walden, on the Walkill river near the falls, for the manufacture of flannels, and is the most extensive of any in the state, capital 100,000 dollars, which is all invested. The establishment consumes from 65,000 to 70,000 pounds of wool per annum, and manufactures about 240,000 yards of white and coloured flannels.

Walkill Company at Walden. This factory consumes about 120,000 pounds of cotton, and makes about 360,000 yards of sheetings per annum.

Orange Company, also at Walden. They manufacture about 30,000 yards of low priced broadcloths per annum.

Other Manufactories in Orange County.

Parmelee & Co. iron works for the manufacture of nails, &c. an extensive establishment.

A number of works for making iron from ore at Monroe.

One cotton manufactory,	} at Blooming Grove.
Craig's paper manufactory,	
Oakley's paper manufactory,	

Townsend's cotton manufactory and Townsend's paper manufactory at Cornwall.

Walsh's paper manufactory, and Rogers' powder factory at Newburgh.

Two woollen manufactories at Walkill, one of which is owned by Messrs. Philips.

QUEENS.

The only manufactories in Queens County, are 2 woollen factories at Coldsprings in the town of Oyster-Bay; owners Walter R. William, H. and John H. Jones. These factories are extensively carried on by water power, and the business conducted by John H. Jones—amount not known.

ROCKLAND.

Ramapo mills, situated on the Ramapo river in the westerly corner of Rockland county, about fourteen miles from the North River, and thirty from the city of New-York. This is a very extensive establishment comprising about 4000 acres of land, and about one hundred mills, dwelling houses and other buildings. The Ramapo manufacturing company, by which the works are owned and carried on, was incorporated in 1824, with a capital of 400,000 dollars. The works consist of an extensive rolling and slitting mill, and manufactory of cut nails in connection with which are employed nearly a hundred men: a cotton mill built of brick, having 5000 spindles and 80 power looms, in which are employed about 200 hands; also a grist mill, and a saw mill. The village, the site of which is remarkably pleasant and salubrious, comprises 700 inhabitants.

There is also in this county, at Haverstraw, an extensive establishment for printing calicoes; and Mr. Anson G. Phelps of New-York, has lately erected a factory for making iron wire on an extensive scale.

RICHMOND.

A large printing and dying establishment on the north part of the island, in the town of Castleton, employs about one hundred hands.

No manufactories of wool, cotton, or iron.

RENSSELAER.

There is an extensive oil cloth manufactory in Lansingburgh.

On the Wynants Kill, two miles south from Troy, are situated two extensive rolling mills and nail factories. At the Albany factory, which is owned in Albany by Messrs. I. & J. Townsend, there are annually rolled 800 tons of iron, of which 450 tons are manufactured into nails. At the Troy factory, the stock of which is held in Albany, Troy, and New-York, there are annually rolled 1000 tons of iron, of which 650 tons are manufactured into nails, and 130 tons into spikes. These last are formed by an eccentric roller and machinery, recently invented and patented by Henry Burden, and they are considered by ship and boat builders to be superior to any heretofore in use. From 3 to 400 tons of iron from the northern counties of this state have been rolled in a year at these mills, and it is the intention of the proprietors to considerably increase that quantity.

SENECA.

At Seneca Falls.—3 flouring mills, a paper mill, and sash factory.

At Waterloo.—5 flouring mills, 2 saw mills, clover seed mill, hemp factory, patent pail factory, do. tub factory, paper mill, oil mill, 3 carding works, lath factory, small forge.

At Ovid.—Steam flouring mill, and carding works of John Maynard & Co.

SCHENECTADY.

There is only one incorporated manufacturing company in this county : viz. "the Schenectady Manufacturing Company." This company manufactures 400,000 yards of cotton goods annually, besides 20, or 30,000 lbs. of yarn. Their factory contains 2,000 spindles and fifty looms, and is located in the town of Rotterdam. In Schenectady there is a paper mill, and a carpet and sattinett factory, both on an extensive scale. In the former, about 5,000 reams of paper are made annually; and in the latter about 50 yards of carpeting and 40 yards of sattinett daily.

Of Grist mills, there are two in the city of Schenectady, 6 in Duaneburgh, 3 in Rotterdam and 1 in Glenville.

Oil mills.—1 in Rotterdam and one in Princetown.

Iron foundries.—1 in Schenectady.

Tanneries.—11 in the county.

TOMPKINS.

In *Ithaca*, 2 woollen manufactories, 1 cotton factory, and several other manufacturing establishments, situated near the village of *Ithaca*, on a creek which flows into the Cayuga Lake. The water power is very considerable at this place, and the scenery of the most romantic description. Large quantities of wheat are annually purchased at *Ithaca*, and floured for the New-York and other markets.

In *Dryden*, 1 cotton factory—in *Ulysses*, 1 woollen factory.

ULSTER.

In the town of *Woodstock* is located the manufactory of the New-York crown and cylinder glass company. This establishment gives employment to about 50 hands, and produces about 1500 boxes of window-glass per month. Agents in New-York, A. Greele & D. Elliott, No. 5, Burling-slip.

In *Saugerties*, a very extensive water-power has been brought into operation, at great expense, by the enterprise of Henry Barclay, esq. calculated to propel machinery to almost any extent. There are now in operation on the premises, a manufactory of white lead, on improved principles; an extensive iron foundry and rolling-mill; a mill for sawing mahogany, &c.; and one of the most extensive and complete paper manufactories to be found in the United States. The machinery of the paper-mill is on the most approved English model, and capable of producing at least 100 reams of paper per day.

WASHINGTON.

In addition to several manufactories of wool, cotton, and iron, enumerated at p. 104, there has lately been established at *Sandy Hill* a manufactory of cotton bagging from hemp.

WESTCHESTER.

Two iron foundries at *Peekskill*, 1 woollen manufactory in *York Town*, 1 do. in *Greenburgh*, 1 do. in *Cortland*, 1 do. in *White Plains*, 1 do. in *Yonkers*, 2 cotton manufactories in *Mamaroneck*, 1 do. in *New-Rochelle*, 1 paper mill with the patent machinery in *Sing Sing* village, 2 paper mills in *Somer's Town*, and 1 paper mill in *Westchester*.

GENERAL REMARKS.

Details from several counties on the subject of manufactures, which were given in the Register for 1830, are now omitted, the same being included in the table, page 104. It may be remarked, that each county in the state (with perhaps one or two exceptions) is well supplied with water power. Grist mills, saw mills, fulling mills, and carding machines, are numerous in nearly every county.

The quantity of cotton annually manufactured by the above factories is found, by actual accounts received from the several superintendants, to be 1,250,000 pounds; which, at an average cost of 12½ cents, amounts to \$156,250, and the annual product, in various kinds of cotton goods, yarns, &c. is \$525,000, leaving a balance for labour, &c. of \$368,750.

The present value of the 12 cotton factories above stated, and now in operation, is estimated at \$565,000. The original cost of which has probably been seven hundred and fifty thousand dollars.

ORISKANY WOOLLEN FACTORY. S. NEWTON DEXTER, Agent, Whitestown.

In addition to the above, the following statement of the Oriskany woollen factory is given. It was erected in the year 1810; is now estimated to be worth \$100,000; has 1500 spindles, 30 power-looms and 5 hand-looms for broadcloths and kerseymeres; and manufactures annually \$130,000 worth of goods, consuming 100,000 pounds of wool, of the average value of 50 cents per pound; and employs 47 men and 69 girls and boys.

Abstract of the principal provisions of the Law concerning Auctions.

[Chap. XVII. Title 1, Vol. I. N. Revised Laws, p. 528.]

The duties are,

1. On wines and ardent spirits, foreign or domestic, two per cent.
2. On goods imported from beyond the Cape of Good Hope, and sold in packages, bales, &c. as imported, one per cent.
3. On all other articles, subject to duties, one and a half per cent.

The following articles are not subject to duties :

1. Ships and vessels.
2. Utensils of husbandry, horses, neat cattle, hogs, and sheep.
3. Articles grown, produced, or manufactured in this state, except distilled spirits.
3. All fabrics of cotton, wool, hemp, and flax manufactured within the jurisdiction of the United States.

Goods are exempted from auction duties,

1. When they belong to the United States or this state.
2. When sold by the authority of a court, or when seized by a public officer on account of any forfeiture or penalty, or under a distress for rent.
3. The effects of a deceased person sold by executors or administrators, or by a person authorized by a surrogate.
4. The effects of a bankrupt or insolvent sold by his assignees, appointed pursuant to law, or by a general assignment for the benefit of all his creditors.
5. Goods damaged at sea and sold within twenty days after being landed, for the owners or insurers.

Any citizen of this state may sell at auction (except in the city of New-York) all such goods as are not subject to duties. But in the city of New-York, or where the goods pay duties, the sale must be by an authorized auctioneer, his partner, or clerk. And any person selling contrary to the said provisions, is guilty of a misdemeanor.

When an auctioneer cannot attend an auction by *sickness*, by *duty as a fireman*, by *military orders*, or *necessary attendance in a court of justice*, or when he is *temporarily* absent from the place for which he is appointed, he may employ a partner to attend in his behalf.

He must give bond to the people of this state, with two freehold sureties, conditioned in the penalty of five thousand dollars, for the payment of the duties imposed by law and accruing on his sales. The penalty for selling without executing the bond, is one hundred and twenty-five dollars for each article offered for sale.

No auctioneer in any city, shall at the same time have more than one house or store for holding his auctions, and shall before entering on his office, designate in a writing, to be filed with the clerk of the city, such house or store and his partner or partners. But goods sold in the packages in which they were imported, furniture, and such bulky articles as have usually been sold in warehouses, in the streets, or on the wharves, need not be sold in the house or store designated in such writing, if such sales be advertised at least two days previously in one or more newspapers.

Auctioneers are to receive two and a half per cent. on the amount of all sales, unless by previous agreement in writing, and for *demanding* or receiving an unlawful commission, shall forfeit two hundred and fifty dollars, and refund the monies so received.

No auctioneer on the same day and at the same place where his public auction shall be held, nor any other person at the same time and

place, shall sell at private sale any goods liable to auction duties, under penalty of forfeiting their price.

Every auctioneer shall make out in writing a quarterly account, dated on the first days of April, July, October, and January in the year for which he is appointed, stating minutely,

1. The sum for which any goods shall have been sold at every auction held by or for him, from the time of his giving bond or from the date of his last quarterly account.
2. The days on which sales were so made and the amount of each day's sale, designating the sales made by himself, or in his presence, and those made in his absence by his partner or clerk, and the causes of his absence.
3. The amount of all private sales made by himself or his partners, and the times thereof.
4. The amount of duties chargeable on all sales made.

Every such account shall, within twenty days after its date, be exhibited by auctioneers for a city, to the mayor or recorder, and if by an auctioneer for a county, to a county judge, and be verified by oath. Every partner of an auctioneer and every clerk who has made any sales, shall also swear to his belief in the truth and justice of every particular of such account.

The state duties (together with the addition of two and one half per cent. on the whole amount of them) are to be paid within ten days after exhibiting such account.

Any deceit or fraud in violating any provision of the Title respecting Auctioneers, is made a misdemeanor, and subjects the offending party to the payment of *treble* damages to the party injured.

WHEAT.

The number of acres of wheat cut in Monroe County at the last harvest, 1830, was ascertained, by actual returns, to have been 50,201; which would probably average 20 bushels to the acre, making 1,004,020 bushels.

ONONDAGA SALT SPRINGS.

W. KIRKPATRICK, *Superintendent.* J. GRINNELL, *Inspector.*

These springs are situated in the town of Salina, Onondaga county, and are the property of the State. Only 45 gallons of the water is required for making a bushel of salt. At the salt works on the sea coast in Massachusetts, 350 gallons of sea water are used to make the same quantity.

The salt is manufactured at four different villages, viz. Salina, Syracuse, Geddes, and Liverpool, the largest proportion being made at Salina. In making salt by fire, 3065 kettles are now used. At Syracuse, the salt is made principally by solar evaporation. The works at present in operation in these villages, are capable of manufacturing three and a half millions of bushels annually. The State receives a duty from the manufactories, for the benefit of the canal fund, of 12½ cents per bushel.

It is stated in the Governor's Message, that during the last year the superintendent of the salt works discovered, that within 3 years past extensive frauds on the revenue had taken place, by carrying off salt to the amount of about one hundred and seventy-five thousand bushels without paying duties. How long previous to 1828 the practice of smuggling salt had been carried on, or to what extent, it is now impossible to ascertain. These frauds were accomplished by means or a combination between certain deputy-inspectors and dealers. Prosecutions are now pending against the transgressors.

Notwithstanding these depredations on the revenue, the salt inspected on which duties have been paid, has gradually increased, as will be seen by the following statement.

Quantity of salt inspected in 1826	.	827,508 bushels.
Do. " " 1827	.	983,410 do.
Do. " " 1828	.	1,160,888 do.
Do. " " 1829	.	1,291,820 do.
Do. " " 1830 ab't	.	1,430,000 do.

The net revenue derived from salt duties by the state from 1817 to 1830 inclusive, is over \$1,190,000.

Coarse salt, weighing seventy-six pounds, and equal in purity to any in the world, is sold at a price which nets the manufacturer nine cents per statute bushel of 56 pounds, and fine salt is sold at six cents. Notwithstanding the heavy state duties and tolls, the dealers have pushed it into competition with foreign salt, east upon the Hudson river and northern canal, and west as far as the Ohio river, at Wheeling.

RECEIPTS AND DISBURSEMENTS, 1830.

The tolls received upon the Erie and Champlain canals during the past year, will amount to about	\$1,027,327
The receipts from auction duties for the year ending 30th September last	180,513
From salt duties till 31st October last	154,332
From other sources about	40,403

Making the proceeds of the canal revenue for the year	\$1,402,575
Of this sum there has been expended by the commissioners, superintendants, collectors, and other canal officers, about	\$249,056
For interest of debt	379,695
	628,751
Leaving the receipts of the last year to be applied towards the payment of the Erie and Champlain canal debt	\$773,824
The sum accumulated from the receipts of former years amounts to	878,176

Making the sum applicable to the extinguishment of the principal of that debt	\$1,652,000
---	-------------

Cayuga and Seneca Canal.

The expenses of superintendence and collection for the last year, with the expenditures of the canal commissioners, so far as can now be ascertained, will amount to about	\$13,085
For interest upon the debt	11,860
	\$24,945

Oswego Canal.

Expenses of superintendence, &c.	\$17,751
Interest upon the debt	21,850
	39,601

Making total annual expense . . . \$64,546

The tolls received during the past year from the Cayuga and Seneca canal are about	\$11,864
Tolls and rents from surplus waters from the Oswego canal	12,812
	\$24,676

Leaving a balance of expenditures more than the receipts from the tolls of those two canals of . . . \$39,870

Of the amount of the above expenditures on account of the Oswego canal, \$3310 have been paid for damages.

There have been received from the Oswego canal, for bonds and mortgages transferred to the Erie and Champlain canal fund	\$30,268
For principal and interest of bonds for lands sold belonging to that fund	3,240
Total	\$33,508

Of this sum, \$22,491 have been paid for the balance of expenditures due this canal the last year, and the balance has been applied towards the deficit of the present year. This sum, being \$11,017, deducted from the above balance of \$39,870, leaves twenty-eight thousand seven hundred and ninety-three dollars, which was made by law chargeable upon the general fund, and has been in part paid from that source.

CANAL FUND.

The Canal Fund consists of the following items (vide Vol. I. N. Y. Revised Laws, p. 193.)

1. Lands granted for the construction of the canals by the state, companies, or individuals, remaining unsold.

2. Debts due for such portions of said lands as have heretofore been sold.

3. The tolls and commutation monies imposed on and collected from such navigable communications belonging to the state, as now are or hereafter shall be made and completed.

4. Duties on the manufacture of all salt, as established by act of 15th April, 1817, (vide 4th vol. Laws, p. 301, 40th section. This duty is twelve and a half cents per bushel on all salt manufactured in the western district of the state.)

5. Proceeds of duties on all goods sold at auction, excepting therefrom the annual sum of thirty-three thousand five hundred dollars. (This sum, by act of April 15th, 1817, is appropriated thus—twenty-three thousand five hundred dollars to the hospital, the economical school, and the orphan asylum society, and ten thousand dollars for the support of the foreign poor in the city of New-York.

6. All monies received for the sale or use of the surplus waters of any canal belonging to the state. And,

7. All monies recovered in suits for penalties or damages, instituted under the canal laws.

The tax formerly appropriated to the canal fund, of one dollar upon every passenger for every trip such passenger was conveyed in a steamboat on the Hudson river, was repealed 1825.

From some of the collector's offices no statements of tolls collected have been received of a later date than the 7th December. It is not known whether any collections have been made at those offices since that date; but from the receipts of the other offices, it is certain that the sums collected, if any, must be very small, and will not materially vary the result as shown by the table. It should be also remarked, that the footing given for the Erie and Champlain canals, includes the proportion of tolls due to the proprietors of the Albany Basin, amounting to about \$3000.

Statement of Freight on the Canals of New-York.

Canal Collector's Office, Albany, January 5, 1831.

The whole quantity of down-freight, upon which toll is charged by weight, that was conveyed on the New-York Canals to the city of Albany during the season of canal navigation in the year 1830, amounts to one hundred and four thousand five hundred tons, estimating a ton at two thousands pounds, and consists principally of the following articles.

ARRIVED.	
Barrels of Flour	396,900
Barrels of Ashes	25,671
Barrels of Provisions	22,008
Bushels of Salt	42,601

CONTEMPLATED CANALS.

CHENANGO CANAL.

To extend from the Erie Canal in Oneida county, to Binghamton, Broome county, on the Susquehannah river. Route as follows: commencing at Whitesborough or Utica, passes South through the valleys of the Oriskany and Sawquoit creeks, and Chenango rivers, and towns of New-Hartford, Clinton, Madison, Hamilton, Sherburne, Norwich, Oxford, Greene, Chenango Forks, and terminates at Binghamton, where it unites with the Susquehannah River. The distance from the Erie Canal to the Susquehannah river is 92 $\frac{1}{2}$ miles.

Elevation from the Erie canal to the summit level 706 feet.

Descent from thence to the Susquehannah river 303 do.

Total lockage 1009 feet.

Total estimated cost of the Chenango canal, by Mr. Hutchinson, Civil Engineer, in 1828, \$944,775 36.

By the act authorizing the construction of the above Canal, passed March 24th, 1829, the Canal Commissioners are directed not to proceed to construct said Canal, unless they shall be first satisfied that there will be an adequate supply of water, without using the waters of either the Oriskany or Sawquoit creeks; that the cost shall not exceed one million of dollars; and also that the canal will produce to the State for the first ten years after its construction, an amount of tolls equal to the interest on its cost, besides repairs and expenses.

On the subject of this Canal, the Canal Commissioners report, Jan. 21, 1830:

First, *On the question of water*, that an adequate supply of water may be procured by a resort to reservoirs, for the summit level, without taking any of the waters of either the Oriskany or Sawquoit creeks.

Secondly, *In regard to its cost*, that it will exceed one million of dollars.

Thirdly and lastly, *In regard to its revenue*, that it will not produce an amount of tolls, in connection with the increased tolls on the Erie canal, that will be equal to the interest of its cost, and the expense of its repairs and superintendence, or of either of them.

BLACK RIVER CANAL.

The Canal Commissioners are directed, by act passed April 6, 1830, to cause the route of a canal to be surveyed from Rome to the High Falls of the Black River, and estimates of the cost of constructing the same to be made.

ROCHESTER AND ALLEGANY CANAL.

The Canal Commissioners, by an act passed April 17, 1830, are directed to cause a route of a canal from Rochester, by the way of Genesee River, to the Allegany River at Olean, to be surveyed, and estimates of the cost of construction made.

INCORPORATED CANAL COMPANIES.

Delaware and Hudson Canal Company.

Incorporated April 23, 1823, for the purpose of constructing a Canal and Rail Road, from the Hudson River to the Coal Mines in Luzerne County, Pennsylvania. Capital \$1,500,000, of which 500,000 are employed in Banking in the City of New-York—office 13 Wall-street. The credit of the State of New-York has also been loaned the Company in five per cent. stock, to the amount of \$800,000.

Canal commenced July 1825, and completed October 1828.

Length of Canal as follows:—From tide water of the Hudson to Port Jervis on the Delaware River, 59 miles. Thence up the Delaware to the mouth of Lackawaxen River, 24 miles. Up the Lackawaxen in Pennsylvania to Honesdale in Wayne County, 25 miles. Total length of Canal, 108 miles.

Length of Rail Road.—16 miles from the head of Canal at Honesdale to the Coal Mines at Carbondale in Luzerne County, in the Valley of the Lackawanna River, which empties into the Susquehannah at Pittston, 22 miles below Carbondale and 8 miles above Wilkesbarre. Total length of Canal and Rail Road 124 miles.

The principal business done on the Canal is in Coal, of which 43,200 tons have been brought down the Rail Road and Canal in 1830. Merchandise carried up the Canal, upwards of 6000 tons.

The Lackawanna Coal brought down this Canal is deposited at Bolton, on the Rondout Creek, one mile from the Hudson River, (opposite Rhinebeck) where vessels may load drawing 11 feet water. It is 90 miles from the City of New-York, and 60 miles from Albany.

At Bolton, 388 vessels have been loaded with Coal, destined for New-York, the cities, towns, and villages on the North River, in New-Jersey, and the Eastern States.

The other transportation on the Canal has furnished lading to more than 200 additional vessels—making an average of about 75 vessels per month, during the season of Canal navigation, (from 27th April to 22nd December.)

There have been about 200 boats employed on the Canal in 1830.

Principal Villages on the Canal—Bolton and Ellensville in Ulster County, Wurtsboro' in Sullivan County, Port Jervis in Orange County, (near the Delaware River,) Honesdale in Wayne County, Penn. and Carbondale in Luzerne County, do. (on the Lackawanna River.)

The waggons used on the Rail Road are drawn by horses, carrying 2½ tons each.

Considerable quantities of lumber, produce, and wood, have been brought down the Canal. Merchandise destined for some of the counties in the State, and the north-eastern part of Pennsylvania, has already found its way through the Canal from the New-York market.

This Canal is 32 to 36 feet wide, upon the water line, and has 4 feet depth of water. The locks are 76 feet in length between the gates, and 9 feet wide. The boats are estimated to carry 25 to 30 tons.

From the mouth of the Rondout, where it connects with the Hudson to Port Jervis, near the Delaware river, are 60 lift locks and one guard lock, of hammersed stone, laid chiefly in hydraulic cement. There are also one aqueduct over the Neversink river 224 feet in length, upon stone piers and abutments; one over the Rondout entirely of stone upon two arches, one of 60 and the other of 50 feet chord; and ten others of various dimensions, upon stone piers and abutments, over lateral streams; 15 culverts of stone, and 93 bridges having stone abutments and wing walls.

Port Jervis is less than a mile from Carpenter's Point, formed by the junction of the Neversink and Delaware rivers, and at which point the states of New-York and New-Jersey corner upon Pennsylvania. Port Jervis affords a view of three states, and also of the Delaware river and the fertile valley of the Neversink.

On the Delaware section of 24 miles, there are 13 wooden locks, and on the Lackawaxen section of 25 miles, are 37 locks of the same description. These locks are secured by a substantial dry stone wall, and so constructed that the wooden lining can be taken out and replaced, without disturbing the rest of the lock.

Honesdale, where the canal terminates, is 16 miles distant from the coal region. Over this 16 miles, the coal is transported upon a rail road. The structure of the rail road is of timber, with iron plates securely fastened to the timber rails with screws. It is estimated that this rail road and its appendages will transport 540 tons per day, in one direction.

The coal of the Lackawanna has been tested, and proves to be of the best quality for working iron, as well as the ordinary purposes of fuel. As to quantity, there can be no reasonable doubt on the subject.

Harlaem Canal Company, City of New-York.

Incorporated April 18th, 1826. Charter perpetual. Capital \$550,000.

For the purpose of making a canal connecting the Hudson and East Rivers, through Manhattan Island, which commences near Hurl Gate on the East River, and crosses the island through Manhattanville to the Hudson River, average distance from City Hall about 6 miles, length about 3 miles, depth of water 6 to 7 feet, width 60 feet, (except one section of about 2000 feet in length, near the centre of the island, which is 100 feet wide.) To be walled with stone on both sides, and to have a street 50 feet wide on each side the whole length, with a lock at each end, to command the tide water. One lock and a considerable portion of the excavation and walls are now completed. 5,500 building lots, about 25 by 100 feet, situated on the canal and in the vicinity, belong to the stockholders of the company.

Chittenango Canal Company, incorporated 1818.—This company have constructed a canal $1\frac{1}{2}$ miles from Chittenango village, Madison county, to the Erie Canal, with 4 locks.

Sodus Canal Company, capital \$200,000, incorporated 1829, for the purpose of making a canal from the Seneca River to the Great Sodus Bay, on Lake Ontario.

Scottsville Canal Company, capital \$15,000, incorporated 1829, for the purpose of constructing a canal from Scottsville Monroe county, to the Genesee River.

Welland Canal.

[Although this canal is located in Canada, the bearing it has on the interests of this state, render a sketch of it appropriate for this Register.]

The Welland Canal in Upper Canada, connects Lakes Erie and Ontario, and is intended to extend from the mouth of Grand River on Lake Erie, 48 miles west of Buffalo, to Twelve-mile Creek on Lake Ontario,—distance 42 miles,—dimensions of the canal, 56 feet wide on the surface, and 8½ feet deep. At present, vessels from Erie to Ontario pass down the Niagara River, and up the Welland (or Chippeway) River—thence the route is by a deep cut through the mountain ridge; the excavation averaging 45 feet depth. Some of the locks are 40 by 125 feet—others 22 by 100 feet. The elevation of Lake Erie, above Lake Ontario, is 334 feet.

This canal has been made by an incorporated company, whose capital is \$800,000. The canal has cost over \$1,000,000. The company have vested in them, in fee, all the land along the line of the canal, with the hydraulic privileges—and a tract of land, of about 16,000 acres, granted them by the British government.

It was so far completed in 1829, that vessels passed upon it from Lake Ontario to Niagara River. The business done in 1830 was however but small, few vessels only having made use of the canal.

INCORPORATED RAIL ROAD COMPANIES.

THE MOHAWK AND HUDSON RAIL ROAD CO.

[Capital \$300,000, with permission to increase to \$500,000.]

Chartered by the Legislature of the State of New-York, April 17th, 1826. The object of the incorporation is to make a railway between the tide water of the Hudson, at Albany, and the Mohawk, or the Great Western Canal at Schenectady.

The route is perfectly straight, and nearly level between the points at which it makes the curl of the great sand plain, near the two cities of Albany and Schenectady. At each of these points, it is proposed to use inclined planes to surmount the difference of curl, which will at the Schenectady termination, be furnished with a stationary engine, while that at the Albany end will be self-acting.

The length of the rail road between the two inclined planes is 14 miles, and the distance is the shortest that is practicable between the two navigations, as well as the best suited in other respects for a rail road.

The rise at the Schenectady termination from the canal is about 130 feet, at the Albany and above the Hudson, about 170 feet. The main line is divided into five different sections, of which two are perfectly level, and the remainder have a slope towards Albany, no part of which exceeds 1 foot in 230, and the larger of the three sections has a slope of no more than 1 foot in 2718.

The work was commenced last summer, and has been carried on with vigour. Its completion may be expected in the course of a few months.

CANAJOHARIE AND CATSKILL RAIL ROAD CO.

Incorporated 1830. Capital \$600,000, for the purpose of constructing a Rail Road from Canajoharie to Catskill. Lt. John Pickell, under the direction of the engineer department of the United States, has made the requisite surveys of this route, and the same is just published, with the charter of the company appended. The facts disclosed in this report are highly interesting to the inhabitants in the vicinity of the route, as the rail road, if completed, will open to them a market for their productions, and double the value of an extensive tract of fertile lands which have hitherto been, in a measure, excluded from the benefit of internal improvements.

The contemplated railway commences at Canajoharie, on the south side of the Erie canal, sixty miles, by way of the canal, from Albany, and by the same route, one hundred and three miles from Catskill. By pursuing the railway route across the country, Catskill is reached by a distance of less than seventy-four miles and a half, making every allowance for the variations from a direct line, which circumstances may render expedient. More than one fourth of the distance by the route of the canal via Albany, will be saved by the rail road.

There are thirty-seven locks between Canajoharie and Albany, which are required to overcome the fall, amounting to two hundred and ninety-eight feet. The average time consumed in the transportation of produce

to Catskill, the engineer computes at forty-three hours. By a rail road, with moderate speed, say a little over twelve miles an hour, Catskill may be reached in one eighth of the time.

There are other advantages noticed in the report, that give the proposed rail road route the preference. A little east of Canajoharie, owing to a high bluff intercepting the rays of the sun, the ice remains in the spring so as to prevent the passage of the boats from ten to fourteen days after the western part of the canal is entirely clear. On an average, fall and spring together, Albany is closed with ice three weeks after the river is navigable from Catskill to New-York.

The report, after giving the particulars of the route, and minutely describing the various obstacles to be encountered, presents, from a variety of particular data, the following general summary:—

Cost of grading and forming the single tract, } estimated at \$8629 47 per mile, 74 miles, }	\$638,506 78
Machinery for five inclined planes, estimated } at \$2000 each, }	10,000 00
Double tracts at the inclined planes, estimat- } ed at \$5000 each, }	25,000 00
Viaducts, }	25,000 00
Whole cost in constructing Rail Road,	<u>\$698,506 78</u>

The annual expenses, including interest at 7 per cent. } stationary engines, fuel, engineers, toll gatherers, }	\$90,271 37
repairs of machinery, bridges, culverts, &c.	

According to the annual report of the canal commissioners of the state for 1829, the tonnage passed and arrived at Utica, is stated at 188,807 tons. If therefore, one fourth of that amount, viz. 47,201 tons, is diverted upon the rail road, there will pass daily 151,28 hundredths, which, at the canal freight, will be equal annually to \$188,767 44, making a balance in favour of the work of \$98,526 07.*

In the above statement, the income from passengers is not included, which the engineer estimates will swell the receipts, at least 30 per cent. per annum.

HUDSON AND DELAWARE RAIL ROAD COMPANY.

Incorporated 1830. Capital \$500,000.

To make a rail road from Newburgh, on the Hudson River, through Orange county, to the Delaware River.

SAFETY FUND ACT.

Abstract of the Act passed April 2, 1829, called the Safety Fund Act.

1. Every corporation, with banking powers, hereafter created in this state, or whose charter is renewed or extended, is to be subject to it for these purposes.

2. To create and continue the fund hereby established, every such bank shall, on or before the first of January, in every year, pay to the State Treasurer, a sum equal to one half of one per cent. on its capital stock paid in, after excepting therefrom that part of it held by the state, and at that rate for the time such corporation shall have been in operation, if less than one year.

3. At the time of making such payment, the corporation making it, shall deliver to the State Treasurer, a statement signed and sworn to by its president and cashier, of the actual amount of its capital stock paid in, and designating the amount owned by the state.

4. Such payments are to continue until every such incorporation shall have paid three per cent. upon its capital stock, which is to be a perpetual fund, by the name of "The Bank Fund," to be applied to the payment of such debts (exclusive of the capital stock) of any of the said corporations which shall become insolvent, as remain unpaid after applying its own property.

5. The Comptroller and Treasurer of the State are to keep proper accounts of "the bank fund," and the former is, from time to time, to report its conditions to the legislature.

6. The "bank fund" is to be the property of the contributing corporations, in proportion to their contributions, but the Comptroller shall, from time to time, invest the same, and all moneys belonging thereto, in the manner provided for as respects the school fund. The Comptroller may sell any such stocks in which such funds may have been invested, when necessary, to meet any charges on the fund.

7. The income of such fund, after deducting the salaries of the bank commissioners, shall annually be paid by the Comptroller to the contributing corporations, in proportion to their contributions, (excepting such corporations as shall become insolvent, dissolved, or whose charters shall expire.)

8. Whenever "the bank fund" is reduced by paying the debts of an insolvent bank, below the sum provided in the 4th section of this act, every bank then existing, or thereafter to be created, shall, on or before the first of January in every year thereafter, pay to the State Treasurer, such sum designated by the Comptroller, not exceeding a sum equal to one half of one per cent. on its capital stock; which payments shall continue to be made by every bank until the said fund shall be reimbursed to the amount specified in the 4th section, when such payments shall be suspended, until the bank fund is again diminished by other insolvencies, when the said payments shall be resumed, and so on.

9. The Court of Chancery, immediately after a final dividend of the effects of such insolvent corporation shall have been made amongst its creditors, shall enter an order on its minutes, setting forth,

1. The total amount of debts against the said corporation, ascertained by the court, including lawful interest thereon.

2. The nett amount derived from its property, and applied under the direction of the court, towards satisfying its debts.

3. The total amount then necessary to pay off said debts.

Such order shall also direct the receiver appointed to take charge of the effects of the corporation, to receive from the Comptroller a sum necessary to pay its debts.

10. Upon such receiver's filing with the Comptroller, a copy of such order, he shall draw his warrant in favour of the receiver, on the treasurer, for the sum (not exceeding the bank fund) necessary to pay the debts, and the money is then to be paid by the receiver to the creditors of the corporation.

11. If, when the copy of the order is filed, "the bank fund" is deficient, the receiver shall be paid the necessary balance out of the first moneys to be paid to the treasurer under the 8th section.

12. The moneys so paid out of the treasury, shall be a charge on the bank fund.

13. Whenever the charter of a bank shall expire, such bank shall receive its share of the bank fund, proportional to its contribution, after deducting its proportion of charges.

14. No creditor of any insolvent corporation shall receive, by virtue of this act, interest on his debt, after the time the order specified in the 9th section is made, nor interest anterior to the presentation of his demand to the receiver.

15. Three persons, to be styled "the bank commissioners of the state of New-York," shall be appointed, whose duty it shall be to visit every bank subject to this act, once at least in every four months, and examine its affairs, &c.

16. If any three banks, subject to the act, require it, the commissioners, or some one of them, shall visit any bank oftener than once in every four months.

17. The commissioners, or either of them, may examine on oath the officers, servants and agents of any bank.

18. If the commissioners discover any bank to be insolvent, or to have violated any law, they shall apply to the Court of Chancery for an injunction against the said bank, &c.

19. They shall report to the legislature in the month of January, each year, the manner in which they have discharged their duties, with any information they may deem useful.

20. The governor shall nominate, and with the senate appoint one of the bank commissioners; the other two shall be appointed by the banks, subject to this act, as follows: Each of the banks in the first, second and third senate districts, shall choose one delegate, which delegates at a meeting to be held at 4 o'clock, P. M. of a day designated by the governor, at the City Hall, in the city of New-York, shall choose one commissioner by ballot, by a majority of all the votes given; each delegate to be entitled to one vote, for every five thousand dollars of the capital stock paid in, of the bank he represents. A certificate of every such choice is to be filed with the secretary of state.

21. The banks subject to this act, in the fourth, fifth, sixth, seventh, and eighth senate districts, shall meet in the village of Auburn, and choose in the same manner one commissioner.

22. Vacancies of commissioners shall be filled in the same manner as in the two preceding sections.

23. The commissioners hold their offices for two years, removable by the governor for misconduct or neglect of duty.

24. Before entering on their office, they shall take the constitutional oath of office, to be filed with the secretary of state.

25. They are not to disclose the names of the debtors of any bank, nor any information obtained in the way of their office, except when legally required.

26. Each of the commissioners shall receive the annual salary of fifteen hundred dollars, payable quarterly, out of the bank fund.

27. No such bank shall issue or have in circulation, at any time, an amount of notes or bills put in circulation as money, exceeding twice its capital stock paid in and possessed; nor shall its loans and discounts at any time exceed twice and a half of the amount of such stock.

28. Any such bank that shall violate the last section, or shall neglect to make any payment required by this act, for three months after the prescribed time, and after being notified by the Comptroller, or shall suspend the payment of its bills in specie for ninety days, or shall refuse to permit an examination of its affairs by the commissioners, may be dissolved as an insolvent corporation.

29. The making of false statements or false entries in the books of such corporation, or the exhibiting of false papers, with intent to deceive the commissioners, is made felony, and subject to imprisonment for not less than three, nor more than ten years.

30. The personal liability of the stockholders of an insolvent's corporation, provided for in the fourteenth, fifteenth, sixteenth, seventeenth and eighteenth sections, of second title, of eighteenth chapter, of first part of the revised statutes, is not to apply to any corporation subject to this act, but the provisions therein relative to the liability of directors shall so apply.

31. The statements required by the nineteenth, twentieth, twenty-first, twenty-second, twenty-third and twenty-fourth sections, of the second title, of eighteenth chapter, of first part, of revised statutes, shall be made by the banks subject hereto, to the bank commissioners, instead of the Comptroller, and the powers herein given to the Comptroller, shall not extend to such corporations.

No stockholder of any bank, shall be a commissioner under this act, and the bank commissioners shall not be any wise concerned in any bank stock in this state.

33. Every bank subject to this act, may receive legal interest on all loans or discounts by them made; but on notes, and which shall be mature in sixty-three days from the time of discount, they shall only receive six per cent. per annum, in advance.

34. Every bank subject to this act, hereafter created, shall, before making any loans or discounts, have all its capital paid in, to be first satisfactorily proved by oath to the commissioners: Every bank whose charter is extended, is to pay in its stock and prove the fact as above in one year from such extension; such latier bank may reduce its capital stock to a sum not below the amount actually paid in at the renewal of their charters; the reduction to be certified by the bank to the Comptroller, within a year from their renewal.

35. No bank subject to this act, shall issue any bill or note except it be made payable on demand without interest.

From the most correct authority, the following appears to have been the condition in 1829 of fifteen Banks in this city, including the U. S. Branch, the capital of which is \$2,500,000.

Whole amount of Bank capital in the city of New-York \$17,830,000

If their deposits, circulation, and specie was in proportion to the returns above in 1828,

The whole amount of deposits in all the banks was . . . 6,890,937

The whole amount of their circulation 5,547,321

The whole amount of specie in their vaults 1,517,004

The earnings of the whole fifteen banks in 1828, as their dividends show, were not far from 1,193,000

If their discounts were at 6 per cent. and averaged 60 days, they must have amounted in the year to . . . 119,310,100

Their amount of discounted bills 19,885,017

From the imperfect returns of 18 Banks in this state in 1828, excluding those in the city of New-York, their comparative situations were nearly as follows, viz.

Capitals.	Deposits.†	Circulation.	Specie.
\$4,071,681	3,332,614	4,155,014	339,450

The whole amount of bank capital in the state of New-York, exclusive of the city of New-York 9,924,600

If their deposits, circulation, and specie are now in proportion to the returns of 1828,

Their whole deposits are equal to 8,123,645

LITERARY DEPARTMENT.

REGENTS OF THE UNIVERSITY.

The Regents are 21 in number, including the Governor and Lieut.-Governor for the time being. They are appointed and may be removed by the legislature. They meet annually (or if necessary oftener) on the evening of the second Thursday in January, in every year, at the senate-chamber in the capitol. They have the power of granting degrees in the arts and in medicine, and have the control of the whole income of the *Literature fund*, and shall divide it yearly in equal proportions in the eight senate districts amongst such of the incorporated seminaries of learning, exclusive of colleges, as are subject to their visitation. Such distribution is to be made in proportion to the number of students in each seminary, who for four months during the preceding year shall have pursued therein classical studies, or the higher branches of English education, or both. The Regents are authorized, personally or by committees, to visit and inspect all the colleges and academies in this state, and make an annual report to the legislature of the system of education and discipline therein.

UNIVERSITY OF THE CITY OF NEW-YORK.

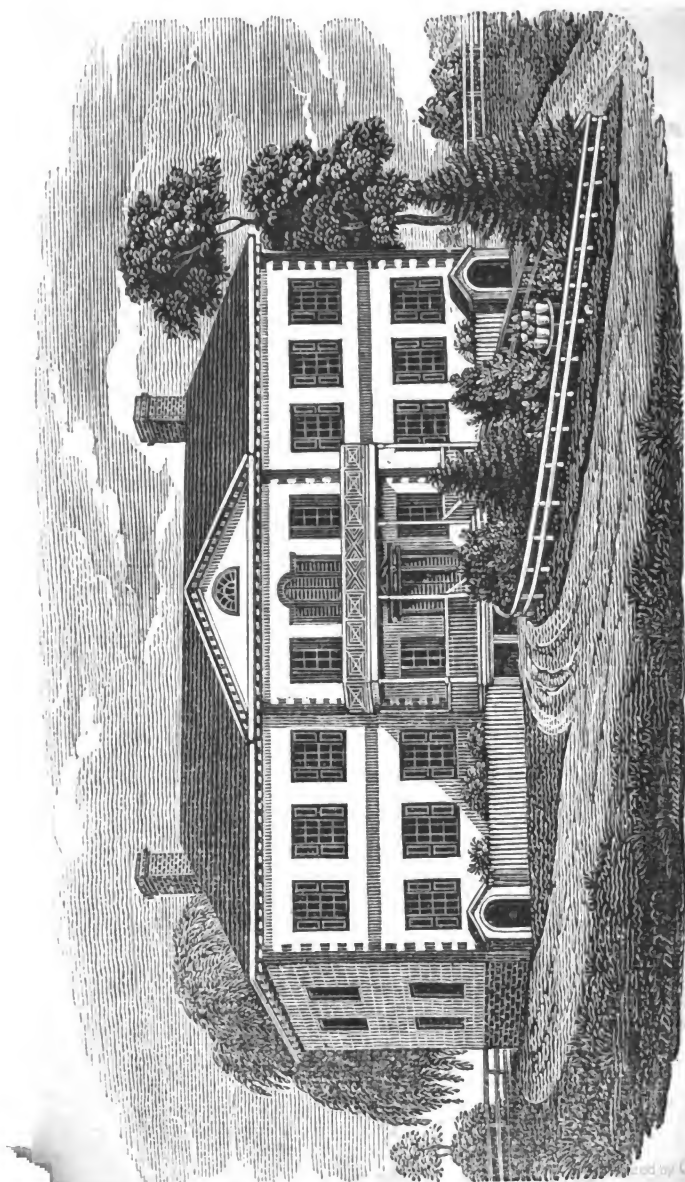

Formed by an association of gentlemen, who have subscribed the sum of \$115,000 toward the object. The capital is divided into transferable shares of \$25 each; and subscriptions are now making so as to increase the capital very considerably. It is the intent of this institution to advance science, literature, and the liberal arts; to increase the means and diminish the expense of acquiring them amongst the people at large. It is a fundamental principle, that no one religious sect shall ever have a majority in its government. We annex a list of the first council elected by the shareholders: no officers except the treasurer, have yet been appointed. Hon. Albert Gallatin acts as chairman of the council, and John Delafield, Esq. as secretary; treasurer, Saml. Ward, jun. Esq.

Members of the Council.

Jonathan M. Wainwright, James M. Mathews, Spencer H. Cone, James Milnor, Samuel H. Cox, Jacob Brodhead, Cyrus Mason, Archibald Maclay, Morgan Lewis, Albert Gallatin, Samuel R.  Twenty Trustees—Five Assistant Teachers.
 Miss E. Gillingham, Instructress of Music.

This academy was incorporated in 1787, and is situated about four miles from the city of New-York, in the village of Flatbush, L. I. The building is a handsome structure, about 100 by 36 feet, with a wing of 50 by 25 feet. A valuable library, a chemical and philosophical apparatus, and a cabinet of minerals are provided for the institution. The course of instruction extends to all the useful and ornamental branches of education for males and females.

HIGHLAND GROVE GYMNASIUM.

This institution was established in the summer of 1829. It is delightfully situated in the town of Fishkill, near the east bank of the Hudson, at its entrance to the Highlands. A spacious and elegant building has just been completed, containing an extensive suite of rooms for the accommodation of scholars, and commands some of the finest prospects in the country. The Rev. Messrs. Kent and Jones are principally assisted by eight professors in the various departments of the classics, modern literature, and the mathematics.

NEW-YORK HIGH SCHOOLS,

CITY OF NEW-YORK.

Incorporated April, 1825, with a capital of \$50,000.

Hon. Gulian C. Verplanck, President.

Joseph Collins, Secretary.

Lambert Suydam, Treasurer.

These schools originated about the year 1821, and were established principally through the enterprise and exertions of Professor Griscom. On his return from Europe, he brought the subject into notice before several citizens of New-York, who seconded the plan; and act of incorporation was obtained in 1825. Two commodious buildings for their accommodation have been erected in Crosby-street, above Grand-street, and the arrangements of both schools are highly approved.

BROOKLYN COLLEGIATE INSTITUTE

FOR YOUNG LADIES.

(Brooklyn Heights, opposite the City of New-York.)

Isaac Van Doren, A.M. and J. Livingston Van Doren, A.M. *Principals*.
Assisted by Five Professors and Seven Instructresses.

This Institution was incorporated in April, 1829, with a capital of \$30,000; the whole of which capital was expended in the lands and buildings the following year. It is designed to afford *Young Ladies* the same advantages in acquiring an education that are enjoyed by the other sex in our Colleges. Seventy-five pupils can be accommodated as boarders in the family of the principals. One hundred and seventy-five pupils have been connected with this Institution the past year.

The building is constructed of brick. Length, 75 feet. Breadth, including the portico and rear piazza, 78 feet. Height with the basement, 4 stories, and contains 40 rooms.

COMMON SCHOOLS.

[Extracts from the Governor's Message, Jan. 1831.]

"There is no one of our public institutions of more importance, or which has better fulfilled public expectation, than that providing for instruction in common schools. The large fund appropriated to that object, has provided a complete organization throughout the state; and although the system has had to encounter all the obstacles to a new enterprise of such magnitude in its operations and objects, yet it has been well seconded by public zeal and liberality. Its imperfections may receive some correction from legislation, yet more is to be hoped from individual exertions, to carry the design of the legislature into effect within the several districts.

"There are nine thousand and sixty-two school districts in this state, and eight thousand six hundred and ninety have made returns according to the statute. One hundred and ninety new districts have been formed during the year, and the number which have made returns has increased three hundred and thirty-eight in the same period. There are in the districts from which reports have been received, four hundred and ninety-seven thousand five hundred and three children, between five and sixteen years of age, and four hundred and ninety-nine thousand four hundred and twenty-four scholars have been taught during the year, in the common schools of the state; the general average of instruction having been about eight months. The returns show an increase of children between five and sixteen, compared with the preceding year, of twenty-four thousand one hundred and ninety-four, and an increase of the number instructed of nineteen thousand three hundred and eighty scholars.

"The public money apportioned among the several school districts, during the past year, amounts to \$239,713. Of this sum, one hundred thousand dollars was paid from the state treasury, and the residue was derived from a tax upon the several towns, and from local funds possessed by some of them. In addition to the public money, there has been paid to teachers by the inhabitants of the districts, \$346,807, making a total of \$586,520 paid for teachers' wages alone, in the common schools of this state."

Amount paid for teachers' wages over and above the public money	346,807 00

\$586,520 36

Extracts from the Report of the Superintendent.

The census of children residing in the districts, includes all of the age of 16, instead of 15, as heretofore; in consequence of this the census of the children more nearly equals the whole number taught than in former years. Excluding the cities of New-York and Albany entirely from the estimate, and it leaves 492,451 children between 5 and 16, and 491,368 children taught; showing an excess of the children between 5 and 16, over those taught of 1830.

"During the year preceding the 1st of July, 1830, the public money received by the commissioners of the towns and apportioned to the districts which had made returns, amounted to \$239,713 36 cents. Of this sum \$100,000 were paid from the state treasury; \$124,556 04 were raised by tax upon the several towns, and \$14,095 32 were derived from local funds possessed by certain towns.

"There is now in the treasury belonging to the capital of the common school fund, \$83,463 85, which, by the present statute, is to be invested in any of the stocks of the state, at the market price of the same.

"The productive capital of the school fund now amounts to \$1,696,743 66. The revenue actually received into the treasury, on account of this fund, for the past year, has been \$100,678 60. This is the first year in which the revenue of the fund has produced the sum required for the annual distribution. The revenue of the coming year is estimated by the comptroller at \$101,350.

"Our system of common school instructions is founded upon the principle, that the state, or the revenue of the school fund, will pay only a share of the expense; and that at least an equal share, as the condition of receiving the state fund, shall be assessed upon the property of the town. In addition to all this, and as a necessary prerequisite to a participation in the public money, the inhabitants of each district are required to tax themselves for building a school-house, and furnishing it with necessary fuel and appendages.

"In order to have a full view of the operations of our system, the trustees of school districts have been required for the last three years, to return the amount paid for teachers' wages in each district, over and above the sum received from the state treasury, from the town tax, and from the local school fund. Seven hundred and forty-two towns and wards have made returns, which show a total amount paid by the patrons of the common schools, besides the public moneys received by the school districts, of \$346,807; which, added to the public money, makes an aggregate of \$586,520 paid for teachers' wages alone in the common schools of the state.

"Thus it will be seen, that where the state or the revenue of the school fund pays one dollar for teachers' wages, the inhabitants of the town, by a tax on his property, pays \$1 25, and by voluntary contribution in his district \$3 46 for the same object, and the local fund amounts to an average of fifteen cents more.

"The foregoing results are given from actual returns, and may be relied upon. They exhibit only the sum paid for teachers' wages, which is less than half the expense incurred for supporting the common schools, as will be seen by the following estimate:

"The average between the whole number of districts, and those which have made returns, deducting 22 for New-York, gives 8824: this num-

ber of school-houses, at an average price of \$200 each, would show a capital of \$1,764,800; add to this is the cost of the school houses and their appendages, in New-York, \$163,476, and it gives a total of \$1,928,236 vested in school houses, which, at an interest of 6 per cent. would be \$115,694

Annual expense of books for 499,434 scholars, at	
50 cents each,	249,717
Fuel for 8846 schools, at \$10 each	88,460
Amount of public money paid for teachers' wages	239,713
Amount paid in the districts for teachers' wages, besides public money,	346,807
Estimating in the same ratio for 43 towns, which have not returned the amount over and above public money	21,308

\$1,061,699

showing a total amount of one million sixty-one thousand six hundred and ninety-nine dollars, expended annually for the support of the common schools of the state.

"The preceding estimates show that the revenue of the school fund, (that is, the amount derived from the state treasury) pays less than one tenth of the annual expenditures for the support of the common schools; another tenth is raised by a tax upon the property of the towns respectively; and the two-tenths thus made up, (being the \$239,713 in the foregoing statement,) constitutes what is called the school moneys, and is the sum received by the commissioners of the towns for distribution among the several districts. Something less than two tenths, for school houses and fuel, is raised by a tax upon the property of the district, in pursuance of a vote of the inhabitants thereof; and the residue, neraly six tenths, or \$617,820, is paid voluntarily by the parents and guardians of the scholars for books, and for the balance of their school bills, after the public money has been applied.

"In 52 counties, the average number of those attending school, compared with the whole number of inhabitants, is as 1 to 3 $\frac{1}{4}$. The average in the state, including New-York and Albany, is in the proportion of 1 to 3 94-100. Appended to this statement is a table, showing a similar comparison between the children at school and the whole number of inhabitants in various countries in Europe. In Prussia, there is one child at school for every 7 inhabitants; in Bavaria, 1 to 8; in England, 1 to 15.

"The children taught in the common schools of the state, fall only 576 short of half a million. According to an enumeration in 1829, there were 442 private schools in the city of New-York; there are, at least, 40 schools in Albany, 27 in Utica, and numerous private schools in the other cities, and most of the villages of the state, the scholars of which are not embraced in the returns made to the superintendent. A complete census of the scholars in the colleges, academies, and the private and common schools, would present a total of at least 550,000 scholars receiving instruction annually in the whole state, which is equal to 1 person attending school to 3 $\frac{1}{4}$ of the whole population, as ascertained by the late census."

Public School Society of the City of New-York.

Peter A. Jay, President, Robert C. Cornell, Vice-President.
 Samuel F. Mott, Treasurer, Lindley Murray, Secretary.
 Fifty-five Trustees.

The New-York Public School Society was incorporated in April, 1805, under the title of the New-York Free School Society for the education of poor children not provided for by any religious society, and in conformity with the provision of the act, elected thirteen trustees; and as they were chiefly persons with whom the plan originated, it may not be unimportant to record their names. The first Board of Trustees was composed of the following persons: De Witt Clinton, president; John Murray, jun. vice-president; Leonard Bleecker, treasurer; Benjamin D. Perkins, secretary; Gilbert Aspinwall, Thomas Eddy, Thomas Franklin, Matthew Franklin, Adrian Hageman, William Johnson, Samuel Miller, Benjamin G. Minturn, and Henry Tenbroeck.

In 1825, an alteration in their charter established them as "the New-

York Public School Society," to whom was entrusted the education of poor children of every religious denomination not otherwise provided for, and the principal part of the school fund for this city was put at their control; since which they have by the most prompt exertion, provided for every destitute district of the city, where the population was of sufficient density to warrant the erection of a school house. They have now 12 school houses, in which are taught 24 schools, comprising about 7000 pupils. The schools are conducted by 26 teachers. The Trustees of each school section convene for receiving all applicants for gratuitous instruction, on Thursday of each week.

School house, No. 12, was opened on the 17th Jan. 1831—present, the Honourable the Corporation of the City, the officers and trustees of the society, and many inhabitants of the 12th ward. This school was erected in compliance with a respectful representation of a meeting of citizens in that ward, in July last. The school has commenced with more than 300 scholars. (Burnt down, Jan. 22, 1831.)

The trustees by careful revisions of their manual and by-laws, and by the preparation of a new manual for their primary department, have much improved the condition of their schools, and they now present to every class of our citizens advantages to be found in few of our schools where similar branches of instruction are pursued, and are adapted to all the purposes of a common school education.

The following is a list of the Schools and number of pupils, viz. No. 1, in Chatham-street, with 451 boys and girls; No. 2 Henry-st. 724, No. 3 in Hudson-st. 666; No. 4 in Rivington-st. 858; No. 5 in Mott-st. 479; No. 6 at Bellevue, 325; No. 7 in Chrystie-st. 534; No. 8 in Grand-st. 790; No. 9 in Bloomingdale, 63; No. 10 in Duane-st. 546; No. 11 in Wooster-st. 550.

The value of the school houses, lots, and school furniture belonging to the society, is estimated at \$163,436.

INFANT SCHOOL SOCIETY,

NEW-YORK.

Instituted May, 1827, under the patronage of the late Governor Clinton.

OFFICERS.

Mrs. Bethune, First Directress.

Mrs. Striker, Second Directress.

Miss H. Murray, Treasurer, Laight-st.

Mrs. Baxter, Corresponding Secretary.

Miss Bleecker, Recording Do.

The Society opened its first school, July 16, 1827, which serves as a model school and seminary, where teachers are trained and qualified for superintending other schools.

The society now numbers nine schools for poor children.

No. 1.—Basement of Canal-street Church, Green-st.

No. 2.—Public School, No. 10 Duane-st.

No. 3.—Thames-street, (branch for coloured children, Greenwich-st.)

No. 4.—White-street, corner of Church, (coloured.)

No. 5.—Bowery Church.

No. 6.—Centre Church, Broome-st.

No. 7.—47 Orange-st.

No. 8.—Public School, Grand-st.

No. 9.—Orange-st. (coloured.)

The average attendance in these schools, is one thousand to twelve hundred children, from eighteen months to seven years of age.

The experience of the society agrees, with that of the friends of Infant Schools in England, that "No system has ever been devised so well calculated to save human life, and prevent crime, as the Infant System of Development."

Funds alone are wanting to have Infant Schools established in every part of the city, wherever there is a dense population of poor.

The whole number of students at present (the 23d session) attached to the medical department of the University of the state of New-York, is 348 ; which are about equally divided between the College of Physicians and Surgeons, located in the city of New-York, and that of the Western District, at Fairfield.

The first periodical work devoted to medicine and the collateral branches of science in the United States, was commenced in the city of New-York, under the name of the New-York Medical Repository. It was begun in 1797, under the editorial management of Samuel L. Mitchell, Edward Miller, and Elihu H. Smith, and continued through 14 volumes, when, on the death of Drs. Smith and Miller, Drs. Pascalis and S. Akerly were added to the editorial department, and the work continued through the 20th volume, and finally passed into the hands of Drs. C. Drake and J. R. Manley, who added three volumes, when the publication ceased. This was followed in 1809, by the New-York Medical and Philosophical Journal, published anonymously, 3 vols. 8vo.; the New-York Medical Magazine, in 1 vol. 8vo. ; the New-York Medical and Philosophical Register, in 1810, edited by Drs. David Hosack and John W. Francis, 4 vols. 8vo.; the New-York Medical and Physical Journal commenced in 1822, by John W. Francis, Jacob Dyckman, and John B. Beck, which now continues under the editorial supervision of D. L. M. Peixotto, and published quarterly; The New-York Monthly Chronicle, in 1824 and 5, by an association of Physicians, 1 vol. 8vo. The New-York Medical Inquirer (published monthly) by an association of Physicians and Surgeons, commenced Jan. 1830, and is now continued weekly under the name of "the American Lancet."

CLINTON HALL, NEW-YORK,

Is situated at the corner of Nassau and Beekman streets, and is constructed of brick stuccoed in imitation of stone, with a granite basement. This noble and substantial edifice was erected by an association of merchants of this city, being intended principally for the accommodation of the Mercantile Library. It includes six stores in the basement, among which is the Clinton Hall Bookstore of Mr. Henry C. Sleight. In the upper stories are the capacious Lecture Room, Library, and Reading Room of the Mercantile Library Association, and rooms occupied by the National Academy of Design. Clinton Hall was dedicated to Literature, Science, and the Arts, Nov. 2, 1830.

The cost of the building was about \$50,000, independent of Clinton Hotel, the property of Philip Hone, Esq. which is under the same roof, fronting on Beekman-street, and cost about the same as the Hall. The Hotel is at present kept in a superior style, by Mr. J. M. Bispham. There are two stores in the basement, one of which is the London and American Bookstore of Mr. Appleton.

on American History, by Samuel L. Knapp, esq. Both courses have been numerously attended, not only by the members of the institution, but by many ladies and gentlemen of the city.

This institution has about 1200 members, consisting of merchants' clerks, for whose benefit it was especially designed. It is now in a very flourishing condition, and promises to become at no very distant period, one of the most useful and extensive institutions in this country.

During the same year, the whole number of poor families relieved at their own houses by the commissioners of the alms house, was 3188, the amount of donations to those families, 16,266 dollars, and the amount expended for out-door nursing, 3,594 dollars. The whole expense of the alms house in 1829, including donations to the out-door poor, the hospital, out-door nursing, &c. was 86,597 dollars.

The number of *foreign* poor admitted into the alms-house during the years 1826, '7, '8, and '9, was 5196, and expense of supporting them, according to the estimate of the commissioners, was 34,000 dollars per annum. The amount received from bonded passengers, and as commutation from the masters and owners of vessels, during the same period, was less than 9000 dollars per annum, leaving a balance against the city on this account, of 25,000 dollars per annum. The number of foreign poor is every year increasing, and with it the burden upon the city.

Commissioners meet at the old Alms House, near the City Hall, on Thursdays, to receive applications for aid.

Stated Meetings, . . . 2d Thursday in each month.

The Institute is composed of four departments, viz. Agriculture, Manufactures, Commerce, and the Arts.

Agriculture, . . . Felix Pascalis, *President.*

Manufactures, . . . James Lynch, *Do.*

Commerce, . . . Henry H. Brown, *Do.*

The Arts, . . . John A. Sidell, *Do.*

The number of members is at present about 250.

The first MANUFACTURERS' FAIR, held under the auspices of the Institute, was in October, 1828, at Masonic Hall, when 61 premiums were awarded.

A second Manufacturers' Fair was held at the same place during four days in October, 1829, when about one thousand specimens of Domestic Manufactures were exhibited, and 115 premiums awarded. It was supposed that at least thirty thousand persons attended the exhibition.

The third Annual Fair was also held at Masonic Hall, in October

1830, when about three thousand specimens were exhibited by three hundred exhibitors, and 178 premiums awarded.

The Report of the Executive Committee of the Institute is referred to for details of much interest on the subject of American manufactures. A catalogue of all the articles displayed at the Fair, with the manufacturers' names and the protecting duties on the several articles, is affixed to the report. The number of spectators at the Fair was variously computed from thirty to fifty thousand.

Addresses before the Institute.

- July 4, 1828, . By Henry M. Western.
 July 4, 1829, . By Ralph Lockwood.
 Oct. 19, 1829, . By James Lynch.
 July 4, 1830, . By Levi H. Clarke.
 Oct. 14, 1830, . By Hon. Tristram Burges, of R. I.

The Institute has published at different times reports on the following subjects—cotton goods, glass, silk, indigo, cash duties and auctions, ship building, and tonnage duties, and three reports on the annual Fairs above mentioned.

To encourage the culture of Silk in the United States, the Institute in 1829, at the suggestion of Dr. Pascalis, an honorary member, imported a quantity of Mulberry seed from France, which was distributed gratuitously to agriculturists.

Total of Fires, 119. Do. probable Loss, \$157,135.

No. of False Alarms, 125.

Number of fires in 1829, 151. It is stated in the report that there are now 49 engines in good order, 3 in ordinary, and 2 somewhat damaged, with 14,771 feet of hose, and 184 fire buckets. The present number of firemen is about 1200, being an increase of 186 within the last six months.

FUEL.

[From Burritt & Clayton's Price Current.]

It has been estimated that the yearly expense of fuel for all purposes in the City and the steam boats, is two millions four hundred thousand dollars. The reduction in price since the opening of the Delaware and Hudson canal, may have reduced the amount to two millions. This sum is so large, it is very interesting, particularly to the middling and poorer classes, and for manufacturing purposes, to ascertain which description is the cheapest or most economical.

Liverpool Coal, at \$10 per chaldron, delivered, is for 36 bushels 27½ cts. per bushel.

Lehigh Coal, at \$9 50 per ton, delivered, is for 23 bushels 34 cents per bushel.

Schuylkill Coal, at \$9 50 per ton delivered, is for 29 bushels 33½ cents per bushel.

Lackawanna Coal, at \$8 per ton delivered, is for 33 bushels 24½ cents per bushel.

It appears, therefore, that the

Price paid for 36 bushels Liverpool coal, will purchase 41½ bushels Lackawanna.

Price paid for 28 bushels Lehigh, will purchase 39 bushels Lackawanna.

Price paid for 29 bushels Schuylkill, will purchase 39 bushels Lackawanna.

A ton of anthracite coal is estimated equal to six cart loads of hard wood.

OYSTERS.

The number of shops, &c. where oysters are sold in this city, is estimated at over 300; and the amount of oysters sold and consumed in the city to exceed \$500,000 per annum. About an equal quantity ascend the North river, to supply other parts of the state.

BILL OF MORTALITY FOR 1830.

The number of deaths in the city of New-York during the year 1830, was 5537, being an increase of 443 above the number in 1829. Males 3030, females 2507; male adults 1390, female adults 1066; boys 1640, girls 1441.

The number of deaths in January was 424, February 384, March 386, April 368, May 439, June 384, July 664, August 667, September 500, October 449, November 421, December 451. The greatest number of deaths was in August, (the same as in 1829,) and the least in April. In 1829, the least number was in June.

Under the age of 1 year were 1547; between 1 and 2, 575; between 2 and 5, 517; between 5 and 10, 207; between 10 and 20, 235; between 20 and 30, 676; between 30 and 40, 672; between 40 and 50, 427; between 50 and 60, 289; between 60 and 70, 206; between 70 and 80, 129; between 80 and 90, 44; between 90 and 100, 9; above a hundred, 4. It will be observed that nearly one half died under five years, and more than a quarter under the age of one year. Taking the population of the city at 210,000, the number of deaths is about 1 to every 38.

Of the whole number, 974 (more than one sixth,) died of consumption.

The whole number of Deaths in 1826 was 4973; in 1827, 5181; in 1828, 5181; in 1829, 5094; in 1830, 5537. The following statement shows the number of deaths by some of the principal diseases during the years of 1828, 1829, and 1830.

CHEMUNG CANAL.

Contracts were entered into last spring for nearly every part of this work. Several miles of excavation are nearly completed, and the Commissioners entertain the opinion, that if the next season should be favourable, this canal will be completed in Oct. next.

CROOKED LAKE CANAL.

This work will not be commenced until next spring, and is to be completed in September, 1832.

COMMERCE OF LAKE ERIE.

Statement of the principal products of the country received at Buffalo in 1830 (from the West by way of the Lake).

267,909 bushels Wheat, 36,929 barrels Flour, 11,859 do. Ashes, 3842 do. Whiskey, 6938 do. Pork, 1663 do. Beef, 4319 kegs Butter, 4216 do. Lard, 752 casks Linseed Oil, 774 tons Pig and Scrap Iron, 742 do. Stoves and other Castings, 998 barrels and tierces Flax Seed, 439 do. Grass do. 1273 barrels Lake Fish, 646 do. Dried Fruit, 343 casks Beans, 356,000 pipes Staves, 25 hhds. Tobacco, 3514 packs Furs and Peltries, 187 barrels Tallow, 90 tons Grindstones, 47 do. Pig Lead, 1607 casks Cheese, 29185 pounds Wool, 149 half tons Hemp, 242 bales Feathers, 2 half tons Hams, 32 do. Hops, 131 barrels Cider, 36 half tons Beeswax, 1153 Hides and Skins, 44 barrels Beer, 2286 bushels Corn, 4206 boxes Glass; 205 barrels Nuts, 31 tons Glass and Stoneware, 5764 lbs. Western Bar Iron.

Exclusive of the above, there were large quantities of sawed Building Stone, Shingles, curled Maple and other Lumber, Paper Rags (many tons), with Axes, Cigars, Oats, Rye, and various other articles, in lesser quantities.

CHENANGO CANAL.

A Pamphlet by Col. R. Tower, entitled "An Appeal to the People of the State of New-York, in favour of the construction of the Chenango Canal," has been lately published, in which it is calculated that if the Canal should cost \$1,000,000, the tolls will produce an income of at least ten per cent. thereon; besides the advantages to be derived from transporting coal on the canal.

Every indication of the existence of coal, in large quantities, has been discovered within the distance of five miles from the great bend of the Susquehannah river, and easy of access.

The number of villages to be accommodated by the construction of the canal is stated to be 75; and the number of inhabitants in the counties of this state to be benefited thereby, at over 120,000.

Times of holding courts ; 3d Tuesday in January and 2d Tuesday in May, at Albany. Last Tuesday in August, at Utica.

JUDICIARY OF THE STATE OF NEW-YORK.

The courts of general jurisdiction, are :

1st. THE COURT FOR THE TRIAL OF IMPEACHMENTS AND THE CORRECTION OF ERRORS.

For its constituent members, vide Constitution, article 5.

It is the court of last resort deciding upon appeals from the court of chancery, and writs of error from the supreme court, and has no original jurisdiction except in cases of impeachments. Its sessions are held at the capitol in Albany, as often as it shall direct, but there are not to be more than two sessions during the recess of the Legislature in any one year.

2d. *The Court of Chancery*, the powers of which are vested in the Chancellor.

Its stated terms are appointed by him ; but two terms at least shall be held in Albany, and two in New-York in every year. By the equity powers given to the circuit judges (vide next page) the court of chancery has, except in a few cases, become a court of appeal only.

3d. *The Supreme Court*, consisting of the chief justice and two associate judges.

It has four terms in each year, commencing on the first Monday in January, May, and July, and the third Monday in October. The January and October terms are held at the Capitol in Albany ; the May term at the City Hall in the city of New-York, and the July terms in each year in Utica : the terms may be continued to be holden for five weeks.

4th. *Eight Circuit Courts*, each consisting of a single judge.

The circuits correspond in territory and name, with the eight senate districts, each of the circuit judges possesses the powers of a justice of the supreme court at chambers, in the trial of issues joined in the supreme court, and in courts ofoyer and terminer and jail delivery. There must be held in each year at least *two* circuit courts, and courts ofoyer and terminer ; in each county in the state ; and in the city of New-York at least *four*.

The courts are held for as many days as the judge thinks necessary, Courts ofoyer and terminer (which have power to try all crimes and misdemeanors) may be held at the time and place at which any circuit court may have been appointed, as follows :

1st. In the city and county of New-York by one or more justices of the supreme court, or of the circuit judges, or by the first judge of the

court of common pleas of the said county, together with the mayor recorder, and aldermen, or any two of them.

2d. In all the other counties, by a justice of the supreme court or a circuit judge, together with at least two of the judges of the county court.

3d. In the counties of Albany, Columbia, and Rensselaer, the mayor, recorder and aldermen of the respective cities therein, or any two of them, and in Schenectady, the mayor and aldermen of the city of Schenectady, or two, may act in the court of oyer and terminer, in their respective counties, with or instead of the county judge.

The Governor with the senate has the power of issuing commissions of oyer and terminer and jail delivery, when occasion shall require.

Besides the powers exercised in the courts of law by the circuit judges, each circuit judge (except the Judge of the first circuit,) within the limits of his circuit shall be a vice chancellor, and shall concurrently with the chancellor, and exclusively of any other circuit judge, have, and exercise all the original jurisdiction and powers now or hereafter vested in the chancellor, in all causes and matters in equity, where the same shall have arisen within his circuit, or where the subject matter in controversy is situated within such circuit, or where the defendants or either of them reside within the same. Subject to the chancellor's appellate jurisdiction.

By an act of the legislature passed in January, 1931, the equity powers of the Judge of the first circuit have been taken away, and a separate Vice Chancellor appointed for the first circuit.

5th. *The Superior Court* of the city of New-York, consisting of a chief justice and two associates.

6th, *Courts of Common Pleas*, in each and every county of the state, which may be held (except in the county of New-York) by the judges of the county courts of each of the counties in this state, or any three of them.

Any three of the Judges of the County Courts of each of the counties (except New-York) shall have power to hold courts of general sessions to try all crimes except those punishable with death or imprisonment for life.

The Mayor, Recorder, and Aldermen, or Mayor and Recorder jointly, or either of them singly, with or without the presence of any of the Aldermen, may respectively in the cities of Albany, Troy, and Hudson, hold Mayor's courts.

There are besides the above certain courts of a peculiar and special jurisdiction, viz :

1st. Surrogates' Courts, having jurisdiction of testamentary cases held by the surrogates of each county.

2d. Courts of special sessions of the peace may be held in and for the county of New-York, by any three judges of the court of common pleas of the said county, of whom the first judge of the said court, the mayor or recorder, shall always be one, and for the several counties of the state, by three justices of the peace or by two such justices and one judge of the county courts of such county, for the purposes provided by law.

3d. The justices of the Marine Court in the city of New-York, are authorized to hold a court therein, to be called "The Marine Court of the city of New-York."

4th. Each of the assistant justices in the city of New-York is required to hold a court in the said city within the ward or wards for which he is appointed.

5th. The justices of the Justice Court of the cities of Albany and Hudson are authorized to hold courts therein, to be called respectively "the Justices' Court of the city of Albany," and "the Justices' Court of the city of Hudson."

6th. Justices' courts in each county, held by a justice of the peace.

County Officers.

1. The board of *County Supervisors** is composed of the Supervisors of the several towns. Their duties as respects counties are analogous to those which each of them exercises in his own town.

2. *County Treasurer*—appointed by the Supervisors. (The Chamberlain of the City of New-York is treasurer for that County.)

3. *Sheriff*, } elected by the people once in three years.

4. *County Clerk*, }

5. Four *Coroners*, do. do. for each county, except New-York, where there is only one.

6. *Surrogate*, appointed by the Governor and Senate.

7. *District Attorney*, do. by the Common Pleas Judges.

8. *Justices of the Peace*, four for each town in the state, one of whom is elected annually by the people. They hold their offices for four years. In the city of New-York are seven justices, called ward justices, appointed by the Common Council—in the city of Albany, four—in Schenectady not less than three nor more than six—in Hudson three—in Troy nine,—appointed by the Governor and senate.

The duties of the above officers are so generally known, that it is deemed superfluous to enumerate them.

The present number of Justices of the Peace in the State, is as follows:

Elected in 757 towns, (4 each)	-	-	-	-	3028
New-York (appointed by the Common Council)	-	-	-	-	7
Albany (appointed by Gov. &c.)	-	-	-	-	4
Troy 9, Hudson 3, Schenectady 6,	-	-	-	-	18
Total	-	-	-	-	3057

Coroner of the City and County of New-York.

JOHN COLVILL.

Town Officers elected annually by the People.

1. One Supervisor for each town in the state, and one for each ward in the city of Albany. For the city of New-York, the Mayor, Recorder and Aldermen, are Supervisors.

2. Town Clerk.

3. Collector.

4. Constables.

5. Assessors.

6. Overseers of the Poor.

7. Commissioners of Highways.

8. Commissioners and Inspectors of Common Schools.

There is also a board of auditors of town accounts in each town, composed of the Supervisors and Town-Clerk, together with the four Justices of the Peace in each town, or any two of such Justices.

* In the City of New-York, the Mayor, Recorder, and Aldermen are the County Supervisors.

Abstract of Act of the Legislature, changing the Office of the Clerk of the Supreme Court from Canandaigua to Geneva ; passed March 31, 1830.

1. The Clerk of the Supreme Court at Canandaigua shall, on the tenth day of April next, remove to and keep the said Supreme Court Clerk's Office at Geneva, in the county of Ontario.

2. The Sheriffs of the counties of Tompkins and Tioga shall, after the tenth day of April next, return all Process issued out of the Supreme Court to the said Office at Geneva, as other Sheriffs are required to do by the fifth Section of the Act passed Feb. 27, 1829, establishing a Clerk's Office at Canandaigua.

'ATTORNEYS' AGENTS.

[Extracts from Rule 7th, Supreme Court, p. 2.]

"Every Attorney shall have an agent in each place where there is a clerk's office, except in the city or town where such attorney keeps his office. No person shall be an agent unless he be an attorney of the court, or deputy clerk, in the clerk's office."

ATTORNEYS AND COUNSELLORS AT LAW

In the State of New-York.

It has not been considered necessary, in the list of gentlemen of the Bar, to designate their different degrees of attorney, counsellor, solicitor, and counsellor in chancery, nor the date of their admission to each degree. The different degrees are generally held together by the same persons. No person now, according to the regular practice, can be admitted as counsellor of the Supreme Court, without being first admitted as attorney, although such a privilege was formerly given, of which, however, advantage was rarely taken. Every attorney of the Supreme Court is entitled to an examination as counsellor in three years after his admission as attorney; and every person is entitled to an examination as solicitor upon producing his attorney's licence, and as counsellor in chancery upon producing his counsellor's licence in the Supreme Court. Persons are admitted, *as of course*, to the same degrees in the County Courts, and in the Superior Court of the city of New-York, as they hold in the Supreme Court. It may therefore be taken for granted, that the persons on the following list are entitled to practise as attorneys in the Supreme Court, and the courts of their own counties, and also as counsellors in the same, except when admitted as attorneys within three years.

It will be observed that the object has been to confine the list of names to practising attorneys and counsellors.

N.B. The numbers under the letters A. N. U. and G. refer to Attorneys' Agents in Albany, New-York, Utica, and Geneva, see pp. 255-6.

ST. PAUL'S CHURCH, TROY, N. Y.

THIS edifice was erected in 1827-8, by the Episcopal Society of Troy, and is one of the best specimens of the Gothic style of architecture in the United States. The walls are of a dark-coloured lime-stone, hammered and laid in mortar. The main body of the building is 103 by 70 feet. At the west end, a tower projects 12 feet, and is 100 feet in height. The basement is 9 feet high, and the walls of the main building rise 38 feet above it. There are five windows on each side, and three on each end; the large window over the altar is 40 by 20 feet. The galleries and ceiling are supported by clustered columns. The wood work of the building is painted in excellent imitation of oak. The number of pews is 140 on the lower floor, and 70 in the galleries. The organ is a fine toned and powerful instrument. The court around the church is enclosed by a handsome fence.

The church was built under the superintendence of Mr. James McFarland, master mason, and Messrs. Coryell & McRae, carpenters, all of Troy, and cost, including the building lot and furniture of the church, \$37,600.

THE NAVY, 1831.

The whole number of vessels in commission is 20, viz. 4 frigates of the first class, 11 sloops of war of the first class, and 5 schooners. The number in ordinary is 17, four of which are ships of the line, 90's and 74's. The estimated cost of the thorough repair of the ships in ordinary is \$1,210,146.

The number of vessels on the stocks is 12, of which five are ships of

the line, and the remainder frigates of the first class. They are under houses, and generally in a good state of preservation.

The estimates for the support of the navy during the year 1831, including repairs of vessels in ordinary, improvements of navy yards, &c. in addition to the unexpended balance, is \$2,649,397 29.

The United States have *Seven Navy Yards*, viz. at Portsmouth, N.H., Charlestown, Mass., on Long Island near the city of New-York, at Philadelphia, at Washington, at Gosport, Va., and at Pensacola.

The amount of stores on hand at the respective navy yards, under the survey of 1829, is \$4,440,720 96.

CURRENCY OF THE UNITED STATES.

Statement condensed from Mr. Sanford's Report on Coins, to the U. S. Senate December, 1830.

Estimated amount of Bank Notes now in circulation in the United States	-	-	-	-	\$77,000,000
Coins in circulation	-	-	-	8,000,000	
Coins in the Banks	-	-	-	15,000,000	
					<u>23,000,000</u>

Total Currency of the United States \$100,000,000

Of the Bank Notes it is estimated that about one half consists of notes for sums exceeding \$5, one fourth for notes of \$5, and one fourth for notes less than \$5.

There are now in the United States about 500 incorporated Banks and the number is annually increased.

The public Revenue of the United States, and the States is collected and distributed almost wholly in Bank Notes.

The Coins held by the Banks and in circulation are silver, principally half dollars and minor pieces, no gold coins being used as a circulating medium, owing to too low a valuation of gold by the U. S. standard, which in 1792 was fixed upon the basis of 15 oz. of silver to 1 oz. of gold.

In South America, Mexico, and the West Indies the proportion of gold to silver is	-	-	-	-	16 00 to 1
In England	-	-	-	-	15 86 to 1
In France	-	-	-	-	15 82 to 1
In Spain and Portugal about	-	-	-	-	16 00 to 1

A Bill was submitted to the senate with the report, which leaving the silver coins unaltered proposes that the gold coins of the United States shall in future contain the quantities of metal which result from the relative proportion of 15.9 to 1. According to this ratio an eagle will weigh 233 26-53 grains of pure gold, and 254 38-53 grains of standard gold.

In the ordinary course of trade our supply of gold and silver is received chiefly from the countries south of the United States, more than one third of the whole is now received from Mexico, though the supply from the Southern States is now considerable. We export gold and silver to England, silver to France, some silver to China, &c. Our exports of silver to China were formerly great, and are now small. Far the greater part is sent to Europe. The demand for gold in this country is for manufactures and exportation. A very considerable quantity is used in manufactures, but much less than the quantity exported.

Receipts of the Gold coined, as follows, viz:

United States—From Virginia,	\$24,000
From North Carolina,	204,000
From South Carolina,	26,000
From Georgia,	212,000

\$466,000

From Mexico, South America, and the West Indies, 125,000

From Africa, 19,000

Not ascertained, 33,195

\$643,145

The annual receipts of gold from North Carolina were inconsiderable previous to 1824; but from that year to 1829 inclusive, had advanced from \$5000 to \$128,000. From Georgia, no specimen of gold had ever been received at the mint previous to the last year. From Virginia, only \$2500 were received in 1829, and \$3500 from South Carolina. Thus it appears that a great increase in the supply of gold has taken place during the last year.

The coinage at the mint for 1830, exceeds the amount of any previous year.

TO PRINTERS AND PUBLISHERS.

The subscriber's expectations having been more than realized in the sale of his

LIGHT FACE PRINTING-TYPE,

he takes this opportunity of returning thanks for the favours received. He hopes, by the exertions made and now making, to bring out new Articles, which may be depended upon for service, as well in Stereotyping as Printing, that his Typographical Brethren, and Publishers, will find it beneficial to themselves to continue their patronage.

A new and complete series of Alphabets, from Agate to English, NEW STYLE, (hair-lines rather stouter than any heretofore got up in this country) are now in a state of forwardness; Agate, Minion, Brevier, and Long Primer, are complete, impressions of which can be seen on application. This style of type is more particularly calculated for Newspaper Printing.

The demand for the subscriber's Type, and Stereotyping, has been so extensive, that he has been induced to enlarge his Establishment by an additional building—so that he is now prepared to execute orders to any amount in either line, with much greater facility than heretofore; and on as favourable terms, as to credit, &c. as are offered at similar establishments.

Type which has only been used for Stereotyping, most generally on hand, and can be furnished on short notice at a reasonable rate to those who may prefer it.

Every article made use of in the printing line, furnished to order, at the manufacturers' prices.

AGENCY FOR PERIODICALS.

WILLIAM STODART,

No. 6 Courtlandt-street, New-York,

Respectfully informs Publishers of Magazines, Newspapers, and other Periodical Works, that he has established a General Agency for such Publications, in this city, at the store No. 6 Courtlandt-street, which is an eligible situation for exhibiting them.

Every exertion shall be used to circulate, as extensively as possible, any Work for which the agency is undertaken; and those Publishers who may think proper to appoint the advertiser Agent in this city for their respective Publications, may rely on punctuality and despatch, and on the proceeds being regularly remitted.

W. STODART has already been appointed Agent for about thirty popular Periodicals, published in Philadelphia, Boston, New-York, London, &c. which are for examination at the above place.

Persons wishing to subscribe for Periodicals, from any part of the United States, it is believed will find this Agency convenient, both for viewing the Works required, and for leaving their orders.

THE MAGAZINE OF USEFUL AND ENTERTAINING KNOWLEDGE.

CONDUCTED BY

N. SARGENT,

Member of the New-York Lyceum of Natural History,

AND

ABM. HALSEY,

Vice-President of the New-York Lyceum of Natural History, and Cor. Secretary
of the New-York Horticultural Society.

PUBLISHED BY J. LEAVITT, 182 BROADWAY, NEW-YORK.

Among the great variety of subjects which the plan of this work embraces, the following may be mentioned, namely: Biography; Natural and Civil History; the various branches of Natural Philosophy; Education; Agriculture; Horticulture; Useful Arts; Statistics; Domestic Economy, &c. These, however, will not exclude others of a less grave and perhaps more attractive character, though it is intended as a **FAMILY FIRE-SIDE BOOK**, and nothing will be admitted which a judicious parent would be unwilling to place in the hands of his children.

TERMS—The Magazine is published monthly, at \$3 50 a year, payable half yearly in advance; or \$2 for half a year. Those who will pay \$6 in advance shall receive the work two years.—Subscriptions received by J. Leavitt, 182 Broadway; E. Bliss, 111 Broadway; William Stodart, 6 Courtlandt-street; H. C. Sleight, corner of Beekman and Nassau-st.; and at the Office of the Magazine, 24 Nassau-street.

The work is highly recommended by Bishop Onderdonk, Professors Mitchell, Renwick, Anthon, Griscom, Rev. J. F. Schroeder, and Dr. J. E. Dekay.

TO TRAVELLERS.

The subscriber, at No. 1 COURTLANDT-STREET, New-York, next door to Whitfield's Stage-Office, keeps constantly for sale, an assortment of Fashionable and Useful Articles for Gentlemen, viz.

STOCKS, COLLARS, CRAVATS,

Cambric and Silk Handkerchiefs, Hosiery, Gloves, Penknives,

Portable Razor Cases, and other Fancy Goods.

The location of this Establishment, being very near Broadway, and directly on the way to the steamboats and stage offices, renders it very convenient to Travellers. **W. HOLLINGSWORTH.**

BYRNE'S

MANUFACTORY OF QUILLS, PENS, AND WAFERS,

N° 60 WILLIAM-STREET,

NEW-YORK.

Booksellers, Stationers, and Dealers in Manufactured Quills, are informed that the proprietor, having made permanent arrangements with some of the most extensive dealers in the rough material in Germany for a regular and periodical supply, his establishment will at all times have the best assortment of any house on this side of the Atlantic. Having reduced the article to a scale of prices below what they can be imported at in the dressed state, it is hoped domestic manufacture may have the preference, as nothing that art can do, will be left undone to have the workmanship superior to any produced here from a foreign market, *which, no doubt, the TRADE will admit.* The terms by which the different kinds of dressings are known, are—1st. Double Dutched; 2d. Pale and Yellow Clarified; 3d. Fluted Opaque; 4th. Embossed Register Quills. The two latter are peculiarly the invention of the Principal, and have given, for the time in use, universal satisfaction. To Country Merchants and others the highest market prices will be given for American raw Quills, either in cash or exchange.

VALUABLE MILL POWER, AT NORWICH, CONNECTICUT.

THE General Assembly of the State of Connecticut having granted a charter to the NORWICH WATER POWER COMPANY, for the purpose of constructing Water Works on the Shetucket and Quinebaug Rivers, the Company have purchased for that purpose an extensive tract of Land, on which they have now erected, just below the junction of said rivers, a substantial Stone Dam, of 280 feet in length. From this Dam the water is conducted through a broad and deep Canal, extending about a mile on the margin of the Shetucket, and forming in its course an extensive range of valuable Mill privileges, which the Company now offer to sell or lease, on the most favourable terms.

The location for manufacturing is hardly equalled in New England; being within the flourishing town of Norwich, at the head of the River Thames, and only five hundred rods from Steam and Packet Navigation, affording every facility for the transportation of merchandise. The supply of water is at all times abundant; the surrounding country is populous and remarkably healthy, and the comforts of life can be obtained as low as in any other section. From these, and numerous other advantages this property affords, it is deemed worthy the attention of capitalists and manufacturers generally—and they are respectfully invited to examine the plan and view the premises of the Company.
